City of Cincinnati

Department of Finance

May 30, 2003

Suite 250, City Hall 801 Plum Street Cincinnati, Ohio 45202 Phone (513) 352-3731 Fax (513) 352-2370

William E. Moller Director

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio

We are pleased to submit the City of Cincinnati's Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2002. This report is prepared by the Department of Finance, which is responsible for the accuracy of the data and the completeness and fairness of its presentation, including disclosures. We believe that the information presented is accurate in all material respects and reported in a manner designed to show the financial position and operating results of the City.

For the year ended December 31, 2002, the City changed its financial reporting to comply with Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. The government-wide financial statements, including governmental activities, in order to comply with GASB Statement No. 34, are presented on the full accrual basis of accounting. As part of the implementation of GASB Statement No. 34, the City is reporting the historical cost of infrastructure assets (retroactive to 1980) as part of governmental capital assets reported in the government-wide statement of net assets. Thus, the depreciated value of construction costs for road, bridges and streets is reported. In conjunction with the implementation of GASB 34, the City has implemented GASB Statement No. 37, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus and GASB Statement No. 38, Certain Financial Statement Note Disclosures, which rescinds some and modifies other financial statement disclosure requirements. Accounting policies are further explained in Note 1.

Cincinnati's 2002 CAFR is presented in three sections: Introductory, Financial, and Statistical. The Introductory section, which provides information on the general contents of the report, contains this letter of transmittal, an organizational chart of City government, and a list of City officials. The Financial section is comprised of the auditor's report, the basic financial statements, required supplementary information and various statements and schedules pertaining to the City's funds and activities. The Statistical section provides various financial, economic, and demographic data about the City, generally on a multi-year basis.

The City is the only governmental unit in the reporting entity; it has no component units. In determining what constitutes the City reporting entity, the criteria established by the Governmental Accounting Standards Board were used. The City is not financially accountable for any potential component units. Hamilton County and the Cincinnati City School District are separate governmental jurisdictions that overlap the City's boundaries. These entities are not included in the City's financial reports.

The City provides the full range of municipal services including police and fire protection, parks, recreation, public services (highways, streets, and waste collection), health and human services, culture, public improvements, planning and zoning, general administrative, water and sewer services.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Two

ECONOMIC CONDITION AND OUTLOOK

According to the Greater Cincinnati Chamber of Commerce in its Economic Outlook 2003, "The Greater Cincinnati economy has been bumping along the bottom of the business cycle and is poised to rebound near the end of this year. Due to the strong historical relationship between the growth of the Cincinnati economy and growth nationally, the projected improvement in the national economy will translate directly into a turnaround locally. As the national economy moves into the rebound and expansion phases of the business cycle, growth in the Greater Cincinnati economy should pick up speed."

In 2002, the Department of Economic Development (now Community Development and Planning) recommended and the City Council approved 5 Enterprise Zone project agreements worth \$59 million of new private investment that will create or retain 1,781 jobs within the City. The Department of Economic Development also established 4 Job Creation/Income Tax Credit Agreements in 2002. These agreements will result in \$57.4 million of new private investment and will create or retain 1,706 jobs.

Employment in the 12-county Greater Cincinnati area decreased 0.8% from December of 2001 through December of 2002. The Chamber of Commerce projects local employment levels are expected to increase in line with national trends. In a comparison with eleven other Metropolitan Statistical Areas in Ohio, using information provided by the Ohio Department of Job & Family Services, Greater Cincinnati's December 2002 unemployment rate of 3.9% was the second lowest in the State of Ohio.

MAJOR INITIATIVES

In 2002, the City continued to improve customer service throughout the city government and promote revitalization of neighborhoods, downtown and the riverfront area. While it is not possible to describe all of the major initiatives and accomplishments that have occurred during 2002, the positive changes made in the following areas are of particular interest.

I. Economic Development

In September 2002 the City Council and the Hamilton County Board of Commissioners formally approved a revised funding plan for expanding and renovating the Convention Center in Cincinnati. The plan includes financial participation by the City, County, State of Ohio, and the private sector. Contingency funding will be requested from the State of Ohio. The existing Convention Center has 162,000 square feet of exhibit space and 82,000 square feet of meeting/ballroom space. With the completion of the expansion the Convention Center will have a total of 198,000 square feet of exhibit space and 103,000 square feet of meeting/ballroom space. The estimated cost of expansion is \$145 million. According to Convention Sports and Leisure International, Inc., a consulting firm for the project, the expansion plan contains the essential components, which are necessary to potentially accommodate 75% of the national market and have an incremental potential community economic impact of \$122 million annually.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Three

Increases in both the City's Transient Occupancy Tax and the County's Lodging Excise Tax are critical components of the expansion and renovation funding plan. Effective April 1, 2002, the City's portion of the Transient Occupancy Tax increased from 1.5% to 3%. In addition, the State approved enabling legislation that allowed the City to further raise the Transient Occupancy Tax to 7.5% and the County to raise the Lodging Excise Tax to 4.0%, effective December 1, 2002. The increased tax rates have been implemented. The state legislation also called for the creation of a Convention Facilities Authority (CFA), which will serve as the financing agency for the Convention Center Expansion and Renovation Project. The CFA board of directors has been established and the expansion project is now in progress.

The new home of the Cincinnati Reds, the \$335.5 million Great American Ballpark, opened on March 28, 2003. The new baseball stadium, along with the Bengals' Paul Brown Stadium, were funded by a voter-approved 1/2 cent increase in the County's sales tax and will anchor each end of a planned major riverfront development called "The Banks".

The Banks will include a 52-acre riverfront park, retail shops, office space, pedestrian plazas, additional green spaces, and amenities. In late 2000, the City and Hamilton County created the Port of Greater Cincinnati Development Authority in part to implement the development of Cincinnati's Central Riverfront Area. The Port Authority, led by eighteen private sector board members jointly appointed by the City and the County, is serving as a developer-friendly public entity to implement The Banks Plan. Hamilton County has committed to finance parking garages with 5,000 spaces to accompany the development.

Construction began in June 2002, on the National Underground Railroad Freedom Center, a \$65 million national education center that will commemorate the historic efforts of the Underground Railroad. The 158,000 square foot facility will be located on 2nd Street between Vine and Walnut Streets and has been financed with both public and private funding. The Freedom Center will be the centerpiece cultural attraction of The Banks development and will be the first of its kind in the United States.

The completion of the \$53 million Riverfront Transit Center coincided with the opening of the Great American Ball Park on March 28, 2003. The transit center is constructed under an eight-block section of the new Second Street in downtown Cincinnati. It provides a safe and convenient central riverfront staging area for special event, school, and tour buses. The transit center includes space to build a plaza just outside the National Underground Railroad Freedom Center and has been designed to accommodate future commuter rail traffic.

The City has invested \$6.6 million in tax increment bond funding to complete an upgrade and remodeling of Saks Fifth Avenue to retain the store in downtown Cincinnati. The upgrade of Saks will anchor and strengthen the downtown shopping district. As a result of the City's investment, Saks entered into a long-term agreement that will retain the store as a major anchor for downtown for at least 15 years. The remodeling project is expected to be completed by October 2003.

The 6th and Race redevelopment project is an \$8.3 million renovation of several buildings on the northeast corner of 6th and Race Streets. The redeveloped buildings will contain 11,940 square feet of retail space on the first floor and approximately 24 housing units on the second and third floors. The City is providing \$3.6 million of tax increment bond funding for this project. Construction on the project is underway with Walgreen's scheduled to open in late 2003 and the residential units in early 2004.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Four

The 4th and Race redevelopment project is a \$27 million renovation of two vacant buildings on the southeast corner of 4th and Race Streets. The redeveloped buildings will contain at least 65,000 square feet of retail space on the first and second floors, 80,000 square feet of office space on the upper floors, and parking spaces in the basement. The City is providing \$8.5 million in tax increment bond funding for this project.

Another redevelopment project planned for downtown is St. Xavier Park, an eight city block area in the eastern quadrant of downtown. It will potentially include 850 units in a variety of housing types and street level retail comprised of small-scale unique shops and restaurants with outdoor seating. The first phase of the St. Xavier Park project, the 108-unit Sycamore Place Building, opened in summer of 2002. Another residential development within Xavier Park district, the 117-unit Renaissance at the Power Building, was partially opened in October 2002. To support these two projects, the City of Cincinnati has committed as much as \$2.16 million toward the \$11 million cost of the Sycamore Place project as well as a \$600,000 public improvement grant for the Renaissance at the Power Building. The second stage of the Sycamore Place redevelopment is the building of a combination parking garage/residential facility at the southwest corner of Seventh and Broadway. Construction has already begun on the 400-space parking garage, which will serve both the Sycamore Place and the Renaissance residential developments. This parking garage has been designed to allow for the future construction of 150 residential units above the parking facility.

In May of 2001, construction began on the \$34 million Lois & Richard Rosenthal Center for Contemporary Art at the corner of 6th and Walnut Streets. The project is supported by a \$4.8 million City grant for site acquisition and clearance, environmental remediation, and public improvements. When completed in May 2003, the Contemporary Arts Center will provide the City with a major new tourist attraction and an additional anchor for the Backstage Entertainment District in the area surrounding the Aronoff Center for the Arts. The Contemporary Arts Center building will be the first construction in America of a Zaha Hadid design.

Renovation to the historic Taft Museum began in fall 2001. Enhancements to the Fourth Street mansion-turned-museum, located in downtown Cincinnati, include additional exhibition space, and a new lecture hall and offices. A new 70-space parking facility is also part of the \$18 million capital project. The project is supported by a \$400,000 capital improvement grant from the City. Construction is expected to be completed in late summer 2003 and the museum will reopen to the public in early 2004.

Renovations at Music Hall began in spring 2002 to create offices and a multi-purpose room for the Cincinnati Opera. The plan allows for both the Opera and the Cincinnati Symphony to expand their facilities at Music Hall. The Opera will occupy the renovated space and the Cincinnati Symphony will move into space currently used by the Opera. Cosmetic improvements to the historic structure will restore some of the exterior to the original architectural design. This \$3.2 million project is supported by a \$300,000 capital improvement grant from the City. Construction is expected to continue through 2003 and completion of the project will be in early 2004.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Five

II. Livable Neighborhoods/ Safe Communities

The vitality of our 52 neighborhoods is key to the success of our City. In the final analysis, our success is measured by the City's responsiveness to its citizens. In 2002, significant steps were taken to provide high quality, timely services in a more cost effective manner. The City has been challenged to continue providing basic services while resources have shown modest growth. We partnered with our neighborhoods to make them cleaner and safer in 2002.

Findlay Market, Cincinnati's largest open air market which celebrated its 150th anniversary in 2002, is currently undergoing a renovation that will nearly double the square footage of the Market House and will double the number of indoor vending stalls. In addition, public improvements are being made to the Market Square that will enhance its appearance and provide additional sidewalk vending opportunities for independent entrepreneurs. It is expected to be completed by Spring 2004.

The Cincinnati Housing Development Fund, LLC was created for the purpose of establishing and operating a fund to provide loans to developers for projects that include the acquisition, rehabilitation, and new construction of market-rate housing. These projects must be within an area of the City suffering from population loss and disinvestments or urban blight. The members of the fund are U.S. Bank, NA, Provident Bank, and Fifth Third Bank. In February 2003, the City committed \$15 million to the Fund resulting in the three members of the Fund committing up to an additional \$85 million. The Fund's lending term began on February 28, 2003 and continues for a period of 10 years.

The Lincoln Court development is the first phase of the West End Urban Design Plan and is projected to be a four-year project with an anticipated completion date in December 2003. The City is providing a \$6 million grant and 15-year property tax abatement to support this project. This project involves demolishing 886 outdated public housing units and replacing them with 500 new townhouse units. The units will consist of 100 homeownership units, 150 market-rate rental units, and 250 public housing units. Lincoln Court will be a combination of two and three story townhouses, a senior building, garden flats, homes with rear garages, individual entrances, pitched roofs, and new streets. The anticipated completion date for the entire development is December 2003 and the estimated cost is about \$85 million.

The Laurel Homes development is projected to be a four-year project with an anticipated completion date in December 2005. The City is providing a \$7 million loan, a \$2 million grant, and a 15 year property tax abatement to support this project. The development consists of demolishing outdated public housing units and replacing them with newly constructed attached town houses. The entire development of Laurel Homes includes 3 census tracts and consists of 715 dwelling units. The Laurel Homes development will be a mixed-income development. It will consist of homeownership unit (150) some of which (38) will be available to families whose total income is equal to or less than 75 percent of median. The market rate rentals (251) will consist of 63 units to be leased to families whose total family income is equal to or less than 60 percent of median income. The new low-rent public housing units (184) will be an addition to the 130 public housing units at the site that were recently rehabilitated. In addition, this development will also include about 18,000 square feet of commercial space as well as green space. The total development cost is estimated at around \$90 million.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Six

Located along Interstate 71 in the Oakley neighborhood, the Center of Cincinnati 500,000 square foot retail project redeveloped part of the former Milacron headquarters into a retail center. The Center of Cincinnati is home to three big-box retailers: Target with 125,000 square feet, Meijer with 192,000 square feet, and Sam's Club with 123,000 square feet.

The Centennial Station Apartment Homes project will be the largest upscale apartment community on Cincinnati's east side. Located in Madisonville, this \$24 million, 18-acre apartment community consists of approximately 308 residential units. The City vacated and granted land to the project valued at \$14,200 and provided a seven-year property tax abatement for the value of the improvements. Ground was broken on the first 100 units in April 2002. The remaining 208 units are scheduled for completion in June 2004.

The 660 Lincoln project, located in the East Walnut Hills neighborhood, is the historic rehabilitation of a building originally constructed in the 1920's to manufacture Ford Model T trucks. This project, with a cost of more than \$11million, will create approximately 100,000 square feet of office space with three floors of enclosed parking and is expected to create or retain approximately 300 jobs. The City provided the project with a 100% property tax abatement for 10 years valued at \$1,035,000. The first tenant, Fisher Design, is consolidating operations from the Over the Rhine and Evanston neighborhoods into 30,000 square feet of this facility and will create and retain the first 100 of these jobs. Construction has begun and is expected to finish by late fall of 2003.

In the year 2002, the City's Community Development and Planning Department initiated five Enterprise Zone agreements that provide property tax incentives to facilitate new commercial development. These agreements will result in private investment of approximately \$59 million and will retain 1,346 current jobs and create 435 new jobs. Among the agreements is Fifth Third Bank's \$47.2 million expansion of its Madisonville check processing and customer service facility. In addition, Valu-PAC's \$9 million investment in the TechSolve Industrial Park will create 200 new jobs targeted toward low-income residents in the City's federally designated Empowerment Zone.

The City's Community Development and Planning Department also initiated four Job Creation/Income Tax Credit and reimbursement agreements in 2002. These agreements were combined with Enterprise Zone agreements to leverage private investment totaling \$57.4 million and support retention of 1,346 jobs and creation of 360 of the jobs reported for the Enterprise Zones program.

The Ohio legislature recently passed House Bill 405, which allows Ohio cities to create Tax Incentive Financing (TIF) Districts up to 300 acres in size. In the past, the City's TIF authority was limited to specific projects. This change provides Cincinnati with a new tool to stimulate development and investment in depressed portions of the community. Under the new legislation, eleven areas of Cincinnati were approved as TIF Districts by Cincinnati's City Council in December 2002. They are: Queensgate South, Downtown South/Riverfront (The Banks), Downtown/Over-the-Rhine West, Downtown/Over-the-Rhine East, Center Hill-Carthage, Walnut Hills, East Walnut Hills, Clifton Heights-University Heights-Fairview, Corryville; Bond Hill, and Evanston.

The Fire Department responded to 6,474 incidents in the City's 52 neighborhoods in 2002. The Department employs approximately 700 uniformed employees and includes 26 fire stations that house 40 companies, 4 paramedic units, 6 basic life support ambulances, and an aircraft rescue firefighting unit.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Seven

The Police Department, with approximately 1,000 uniformed officers, responded to 291,127 calls for service, made 42,478 arrests, and completed 29,229 reports for violent and property crimes in 2002. The Police Department has successfully implemented the Community Oriented Policing (COP) in all neighborhoods in Cincinnati. Community Problem Oriented Policing (CPOP), is an extension of COP, and will help solve quality of life and crime problems in neighborhoods.

In 2002, the Parks Department conserved and maintained 70 neighborhood parks, 34 preserves and nature areas, 5 parkways, 50 miles of hiking and bridle trails, 80,000 street trees along 1,000 miles of City streets, 5 nature centers, 9 scenic overlooks, 52 playgrounds, and over 100 picnic areas. The Parks Department also manages Krohn Conservatory and is responsible for picnic shelters, pavilions, and lodges.

In 2002, the Recreation Department maintained 204 individual recreation areas encompassing approximately 2,300 acres. The department's facilities also include 45 recreation and senior centers, 108 play areas, 41 swimming pools, 7 golf courses, 122 tennis courts at 35 locations, athletic fields at 140 sites throughout the city, 3 boat ramps and the Airport Play Field. It also controls the 33-acre Central Riverfront Complex, which includes Bicentennial Commons at Sawyer Point, Yeatman's Cove, the Public Landing, Concourse Fountain Marina, Serpentine Wall, the Rowing & Fitness Center, and the historic Showboat *Majestic*.

Transportation and Engineering Department is in charge of planning, designing, building, and maintaining the City's transportation network which includes 2,820 street lane miles, 71 bridges, 48 miles of retaining walls, 1,700 miles of sidewalks, 150,000 street signs, 7,000,000 lineal feet of pavement markings, and 382 sets of hillside steps.

The Health Department provides comprehensive primary health care and dental services for underserved and highrisk populations through the operation of six health centers and a sexually transmitted disease center. Also provided are laboratory, pharmacy, immunization, nutritional services, and public health nursing programs. In 2002, services were provided to almost 48,000 users (30,000 uninsured) who made more than 135,000 visits to the health centers.

The Health Department also made over 30,000 public health inspections resulting from citizen requests or licensing requirements of state and municipal laws. It also issued about 100,000 birth and death certificates.

The Traffic and Road Operations Division of the Public Services Department maintained 725 traffic signals and 31,500 streetlights in 2002. The Neighborhood Operations division of that department collected approximately 112,000 tons of solid waste and 8,800 tons of yard waste from 127,000 households and 12,000 small businesses.

The Traffic and Road Operations Division's continued proactive approach to potholes (filling year-round, utilizing all city employees to identify locations, and establishing www.pot.hole@cincinnati-oh.gov) has resulted in reduced complaints and related legal claims filed against the City for damages.

In a survey of water rates done in January of 2002 by the City of Englewood, Ohio, Cincinnati's Water Works Department had the sixth lowest rate of 28 cities surveyed. An average customer in Cincinnati pays \$38.67 per quarter year for water.

The Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Eight

Lunken Airport, a 1,000-acre facility owned and operated by the City since 1930, handled approximately 131,000 flights in 2002. Lunken services many major corporations as well as local small businesses, private pilots, medical, and military flights.

FINANCIAL INFORMATION

Internal Control

The Administration believes that the City's internal control structure provides reasonable assurance that assets are safeguarded, transactions are recorded and reported appropriately, and policies are followed. The concept of reasonable assurance recognizes that the cost of a control procedure should not exceed the expected benefit. An important element of the City's control structure is the ongoing program to promote control consciousness throughout the organization. The Administration's commitment to this program is emphasized through written policies and procedures, and a well-qualified financial staff.

Budgetary Control

An operating budget is adopted each fiscal year for the General Fund and those Special Revenue Funds identified as appropriated in the financial statements. Budgetary data for better management control does exist for the Nonappropriated Special Revenue Funds. For each budgeted expenditure classification, the level of appropriation control, which may not be exceeded, is: personal service, non-personal service, capital outlay and debt service. Any revisions that alter the appropriation control classification of any division within a City department must be approved by City Council. Encumbrances do not lapse at year-end and are included as expenditures in the current year budget (Non-GAAP Budgetary Basis).

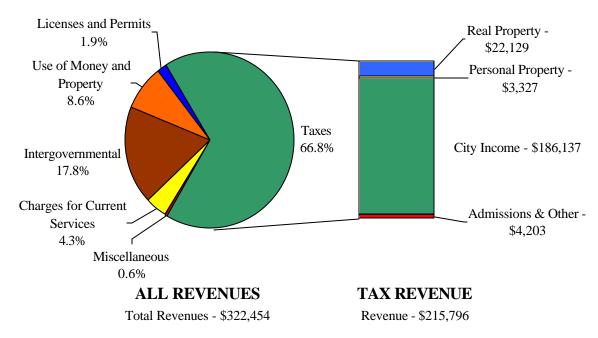

Virtually all of the general services of the City have been financed with resources from the General Fund. General Fund revenues include property taxes, the City income tax, the Ohio Local Government Fund, the Ohio Estate Tax, and other revenues provided by the citizens of this community.

Actual Non-GAAP General Fund expenditures/encumbrances in 2002 were \$312 million; this is a \$3.1 million savings compared with a 2002 expenditure appropriation of \$315.1 million. Actual Non-GAAP revenue of \$305.9 million fell short of the original 2002 revenue estimate of \$309 million by \$3.1 million.

Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Eleven

Revenues

Income Tax

The 2.1% locally levied income tax applies to gross salaries, wages and other personal service compensation earned by City residents, and to the same income of nonresidents earned while working in the City. Credits against the tax are granted for residents employed outside the City who must pay a local income tax where they work. The tax also applies to the net income of business organizations derived from business activities conducted in the City.

The 2.1% tax is subdivided into four components. The first component is the latest increase of 0.1% enacted July 1, 1988 to be spent only for the maintenance of the City's infrastructure. The second component is the 0.3%, which can be used only for public transit purposes. The third component is 0.15%, which can be used only for permanent improvement purposes. The remaining 1.55% is first used to meet annual deficiencies in the General Fund revenues and then to provide funds for capital or operating needs. Receipts from this tax are directly related to employment levels and general economic conditions in the Cincinnati area. Collections and allocations for the past three years were as follows (000's omitted):

	<u>2002</u>	<u>2001</u>	<u>2000</u>
Gross Revenue (Non-GAAP Basis)	\$261,120	\$265,492	\$256,974
Refunds	10,125	9,972	8,991
Net Revenue	\$250,995	\$255,520	\$247,983
Allocated to General Fund	185,259	188,598	183,035
Allocated to Transit Fund	35,856	36,503	35,426
Allocated to Permanent Improvement Fund	17,928	18,251	17,713
Allocated to Infrastructure Fund	11,952	12,168	11,809

Use of Money and Property

The benchmark for the City's general investments is a blended twelve-month moving average return. To measure our investment performance the Finance Department uses an index comprised of 20% of the 3-month Star Ohio rate and 80% of the average two-year U.S. Treasury Note rate. The benchmark ranged from 2.95% to 4.46%. For each month in 2002, the City consistently had good returns by exceeding the benchmark from 0.50 to 1.52% percentage points. The 2002 rate of return on all investments was 4.47% compared with a 2001 average of 6.1%. This lower return in 2002 compared to the prior year was anticipated as general interest rates, as set by the Federal Reserve Bank, were at a forty-year low.

The total return for our Retirement System investment portfolio was -12.10% in 2002 under-performing the blended benchmark index (50% Russell 3000, 16.5% MSCI EAFE, 33.5% Lehman Aggregate) that returned -10.41% in 2002. The portfolio averaged an annualized rate of return of -5.73% (compared to -6.48% for the blended benchmark index) for the three-year period beginning January 1, 2000 through December 31, 2002.

Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Twelve

Intergovernmental Revenue

The Intergovernmental Revenue category includes three major revenues -- Estate Tax, Property Tax Reimbursements and Local Government Fund. Estate tax collected in 2002 was \$20,428,000, which was approximately \$957,000 more than the amount received in 2001. Property taxes were \$624,000 less than the 2001 collections, and Local Government Fund revenue decreased \$1,840,000 from 2001's collections as the State of Ohio had less revenue to share with Ohio's local governments in 2002.

Expenditures

General Fund Non-GAAP expenditures, including encumbrances, for 2002 increased 3% over 2001. Budgeted General Fund expenditures appropriated for 2003 are \$312.5 million, which is a decrease of 0.9% from the total 2002 appropriation of \$315.2 million.

Working Capital Reserve and General Fund Balance

City Council established standards for a minimum working capital reserve account in 1984 to assure a strong financial position and to protect Cincinnati's general obligation bond rating during periods of fiscal stress. The policy called for achievement of a minimum reserve level, for emergency needs of a catastrophic nature, of no less than 5% or more than 8% of general operating revenues by December 31, 1986. The targeted year-end reserve level was achieved in January of each year 1985 through 2002. For 2003, the target reserve of \$20.4 million (6.6% of 2003 estimated revenues) has already been achieved.

Proprietary Operations

The following events and trends had a significant effect on the financial results of operations of the proprietary funds:

Enterprise Funds

The Department of Water Works has 2,860 miles of water main in its system to deliver a safe, abundant supply of water to its customers. In order to assure a continuous, reliable supply of water, the department replaces the infrastructure at a rate of 25 miles or approximately 1% each year.

Water Works agreed to supply Boone County and the City of Florence in Northern Kentucky with drinking water. In December of 2001, crews began drilling a tunnel 40 feet below the Ohio River bed for the 36-inch water main that will eventually provide 60,000 Southern customers with water services. The City began to provide water to Boone County in March 2003. The tunnel is the largest interstate transfer of water in the country, pumping 30 million gallons of water to Kentucky each day.

Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Thirteen

In February 2002 Water Works signed an operating and maintenance agreement with the City of Mason, Ohio. The purpose of the 30-year agreement is to provide retail water services to Mason's water utility customers, to operate and maintain Mason's water distribution system, water treatment plant and to provide utility billing and collection services for Mason's wastewater, storm water and garbage utilities. In return for these services, Water Works is entitled to all the water revenues derived from the Mason system in addition to a collection fee for the utility billing services.

At Lunken Airport, the annual number of flights is expected to increase from 131,000 in 2002 to 150,000 in 2003 due to the construction of 90 new hangars.

Pension Trust Fund Operations

In 2002, the City of Cincinnati Retirement System's net plan assets decreased \$376 million or 15.9% from 2001. The decrease is the result of benefit payments and the general stock market decline for both U.S. equities and international equities that were only partially offset by increased returns in U.S. fixed income securities.

Debt and Bonds Issued

Standard and Poor's rates the City's general obligation bonds "AA+", their second highest rating. The City's bond rating by Moody's is Aa1", their second highest rating. The ratings reflect the City's strong financial management and healthy local economy.

The gross debt at December 31, 2002 was \$488 million, consisting of \$196 million general long-term debt and \$292 million in self-supporting bonds and notes, as compared to \$483 million at December 31, 2001. The net tax supported debt at the end of the year was \$182 million, which is \$21 million more than the amount outstanding at the end of the previous year. During 2002, \$62,528,000 of bonds and notes matured and was paid.

On March 28, 2001 and March 20, 2002, City Council authorized the issuance of \$39,280,000 of general obligation bonds. The bonds were dated May 1, 2002. The six bond issues were sold at coupon rates from 3.25% to 5.0%, but with a bid premium of \$413,086 the effective rates were from 2.18% to 4.8%. The bonds include tax supported issues of \$16,975,000 for Street Improvements, \$4,600,000 for Public Building Improvements, \$4,500,000 for Urban Renewal Improvements, \$3,080,000 for Urban Renewal Improvements, \$4,000,000 for Economic Development Improvements, and \$6,125,000 for Equipment Improvements.

On September 30, 2002 as amended by Ordinance passed October 16, 2002, City Council authorized the taking of bids on \$15,100,000 of bond anticipation notes to be dated November 12, 2002, for Convention Facilities Improvements. The notes were sold at a coupon rate of 2.5%.

Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Fourteen

Cash Management

Cash temporarily idle during the year was invested in Certificates of Deposit with maturities ranging from 599 to 1,127 days; in FHLB/FNMA Securities with maturities ranging from 728 to 1,163 days; and in U.S. Treasury Notes ranging from 530 to 1,214 days to maturity. The average yield on maturing investments during the year was 5.1% compared with a 2001 average of 6.1%. In 2002, the interest income from investments of temporarily idle money totaled \$29.9 million compared with \$35.7 million in 2001. The \$5.8 million decline was due primarily to decrease in interest rates and general market decline.

The City's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Accordingly, deposits are either insured by federal depository insurance or collateralized. One hundred percent of the investments held by the City at December 31, 2002 are classified in the category of lowest credit risk as defined by the Governmental Accounting Standards Board. This percentage did not change at any time during the year.

Risk Management

The City maintains a comprehensive all-risk property insurance program through a commercial carrier, covering approximately \$818 million in property values. The program contains a \$100,000 deductible, provides 100% replacement cost of property and has a maximum limit of \$100 million for earthquake damage and \$100 million for flood damage.

OTHER INFORMATION

Independent Audit

The firm of Deloitte & Touche LLP was selected in October 1999 to perform the City's audit for the five years 1999 to 2003. Deloitte & Touche LLP has audited the accompanying general-purpose financial statements. Their report is included herein.

A single audit is an organization-wide financial and compliance audit that is conducted in lieu of the traditional grant-by-grant multiple audits performed in the past. Federal law requires us to have this single audit of all City activities; we have remained in compliance with this requirement since its inception in 1985. Deloitte & Touche LLP conducted the single audit for the 2002 fiscal year.

Honorable Mayor, Members of City Council, and the Citizens of the City of Cincinnati, Ohio Page Fifteen

Certificate of Achievement and Budget Award

During 2002, the Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Cincinnati for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2001. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a one-year period.

This is the 22nd consecutive year that the City has received this prestigious award. In 1979, for our 1978 annual financial report, we were the first governmental unit in Ohio to receive the Certificate. As of December 31, 2001, 115 municipal reporting entities in Ohio and only 1,611 units nationwide are holders of the Certificate. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA for their review.

We are equally proud of the GFOA's Award for Distinguished Budget Presentation earned by the City for our 2001/2002 biennial budget. Only 11 cities in Ohio received this award for fiscal years beginning 2001 and only 558 cities received the award nationwide.

ACKNOWLEDGMENTS

The preparation of this Comprehensive Annual Financial Report was accomplished by the efficient and dedicated services provided by the entire staff of the Department of Finance. Each member of the Department has our sincere appreciation for the contribution made in the preparation of this report. Appreciation is also expressed to those in other City departments for their cooperation and assistance in matters pertaining to the financial affairs of the City. We hereby acknowledge and thank all who contributed their time and effort.

Respectfully,

William E. Moller Director of Finance

CERTIFICATE OF ACHIEVEMENT

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Cincinnati, Ohio

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2001

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

William Pate Al Sta

President

Executive Director

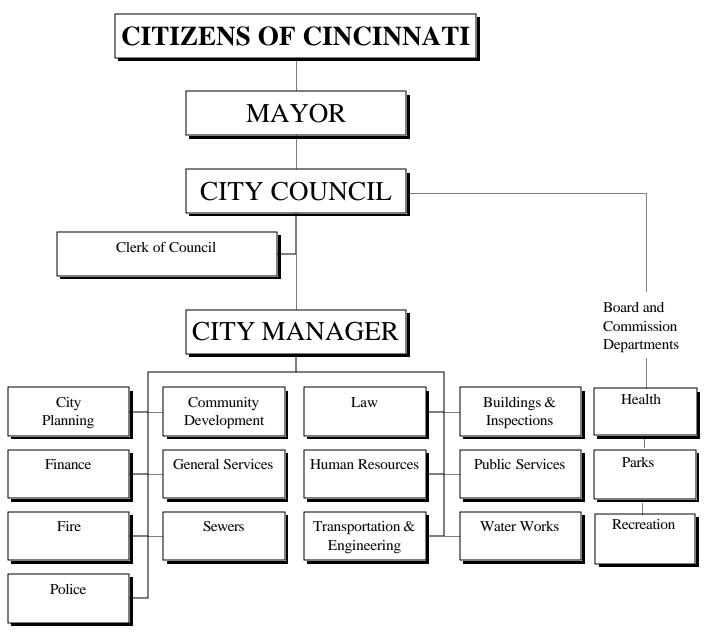

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Cincinnati, Ohio for its comprehensive annual financial report for the fiscal year ended December 31, 2001.

The Certificate of Achievement is a prestigious national recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Cincinnati has received a Certificate of Achievement for the last twenty-two consecutive years (fiscal years ended 1980 - 2001). We believe that our current comprehensive annual financial report continues to meet the Certificate Achievement of Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and
Members of the City Council
City of Cincinnati, Ohio and
Betty Montgomery, Auditor of State of Ohio

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cincinnati, Ohio, as of and for the year ended December 31, 2002, which collectively comprise of the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on the respective financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the respective financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the respective financial statements referred to above present fairly, in all material respects, the respective statement of net assets or financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cincinnati, Ohio, as of December 31, 2002, and the respective changes in financial position (and respective cash flows, where applicable) thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1 to the basic financial statements, in fiscal year 2002, the City adopted Governmental Accounting Standards Board ("GASB") Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments: Omnibus*, and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*.

Management's Discussion and Analysis on pages 3 through 14, and the Budgetary Comparison Schedule-General Fund on page 73 and Note to the Required Supplemental Information on page 74 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. This information is the responsibility of City's management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the City's basic financial statements. The supplementary information listed in the accompanying table of contents as Exhibits A-1 through E-3 are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplemental information is the responsibility of City's management. Such information has been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections, as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has not been subjected to auditing procedures applied in the audit of the City's basic financial statements and, accordingly, we express no opinion on it.

Deloitte & Touche LLP

May 30, 2003

City of Cincinnati Management's Discussion and Analysis

As management of the City of Cincinnati (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2002. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages v - xix of this report.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$1.4 billion (net assets). Of this amount, \$258.5 million is considered unrestricted. The unrestricted net assets of the City's governmental activities are \$152.9 million and may be used to meet government's on-going obligations. The unrestricted net assets of the City's business type activities are \$105.6 million and may be used to meet the on-going obligations of the City's water, parking, convention center, stormwater, aviation and golf business-type activities.
- The City's total net assets increased \$96.4 million in 2002. Net assets of the governmental activities increased by \$51.3 million, which represents a 7.2 percent increase from the 2001 balance. Net assets of business-type activities increased \$45.1 million or 7.6 percent from 2001. Governmental activities investment in capital assets, net of related debt increased \$32.2 million. Governmental activities restricted assets increased \$44.3 million. Business-type activities investment in capital assets, net of related debt increased \$40.5 million. Business-type activities restricted assets increased \$3.4 million.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$351.2 million, an increase of \$21.2 million in comparison with the prior year. On a combined basis approximately 48.7 percent, \$171.2 million, is *available for spending* at the government's discretion (*unreserved fund balance*). Unreserved fund balance includes \$112.7 million restricted for capital projects.
- At the end of the current fiscal year, the general fund reported a fund balance of \$65.3 million. The unreserved fund balance for the general fund was \$53.1 million, or 17.4 percent of the total general fund expenditures. There was a \$16 million increase in general fund balance for the year ended December 31, 2002.
- The City's total debt increased by \$4.9 million (1.0 percent) during the current fiscal year.

Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus revenue and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or

a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, community development, public safety, parks and recreation, transportation and engineering, general services, public services, and public health. The business-type activities of the City include the Water Works, Parking Facilities, Convention Center, General Aviation, Municipal Golf, and Stormwater Management Funds.

The government-wide financial statements can be found on pages 17 to 19 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 28 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the capital projects fund, and the debt service fund, all of which are considered to be major funds. Data from the other 25 funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 20 to 24 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water works, parking facilities, convention center, municipal airport, municipal golf courses, and stormwater management system. Internal service funds are an accounting device to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds for its printing services, general stores operation, municipal garage, property management function, self-insurance medical fund, workers' compensation fund, and regional computer center. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Works Fund, which is considered to be a major fund of the City. The other enterprise funds are combined into a single, aggregated presentation in the proprietary fund financial statements. All internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the other enterprise funds and internal service funds are provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 25 to 29 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 30 and 31 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33 to 70 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Budgetary Comparison of the City's General Fund Required supplementary information can be found on pages 71 to 74 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 75 to 134 of this report.

Government-wide Financial Analysis

The largest portion of the City's net assets (72.6 percent) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to its citizens; consequently, these assets are *not* available for future spending.

Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets 125.5 million (9 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$258.5 million) may be used to meet the government's ongoing obligations to citizens and creditors. It is important to note that although the total unrestricted net assets is \$258.5 million; the unrestricted net assets of the City's business-type activities (\$105.6 million) may not be used to fund governmental activities.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same held true for the prior fiscal year.

Overall net assets of the City increased \$96.4 million in 2002. Net assets for governmental activities increased \$51.3 million, while net assets of business-type activities increased \$45.1 million.

There was an increase of \$44.3 million in restricted net assets reported in connection with the City's governmental activities. The increase in amounts restricted for capital projects and debt service was a result of several transactions, including the City issuing \$39.3 million in bonds in 2002.

The City's governmental activities amount invested in capital assets, net of related debt, increased \$32.2 million as bond proceeds and capital grants were used to complete certain capital projects during 2002. The City's business-type activities amount invested in capital assets, net of related debt, increased \$40.5 million.

Governmental activities. Governmental activities increased the City's net assets by \$51.3 million, thereby accounting for 53.2 percent of the total growth in the net assets of the City. Key elements of this increase are as follows:

- Operating grants and contributions increased \$13.9 million in 2002. Two Community Development housing projects received grant proceeds totaling \$9.9 million. The grants were to be used to rehab an apartment complex for the elderly and for public improvements on a housing development project. The Empowerment Zone operating grant revenues increased by \$3.4 million in 2002.
- Unrestricted investment earnings were higher than normal in 2001 and 2002 because of the stock received by the City from the demutualization of Anthem Blue Cross and Blue Shield in 2001. The stock had a fair market value at 2001 year end of \$43 million. In 2002, the City sold the stock and received cash of \$54.7 million and interest earnings on the proceeds of \$1.8 million.
- A \$3.5 million contribution to the National Underground Freedom Center was expensed in 2001 contributing to the decrease in Community Development expenses in 2002.
- Parks & Recreation expenses decreased in 2002 from 2001 by \$14.5 million. In 2001, expenses included \$9 million for the Cincinnati Zoo from bonds sold by the City. The Cincinnati Zoo will pay for debt service on the bonds.
- Capital grants and offsetting Transportation and Engineering expenses decreased primarily as a result of the Fort Washington Way Interstate Highway construction project being substantially completed in 2001.
- Public Safety expenses were up \$10.7 million in 2002 due to additional personnel costs and related benefits, additional police expenses related to a court settlement and additional expenses for homeland security.
- Proceeds from a \$15.1 million note sold by the City for the Convention Center expansion was transferred from governmental activities to business-type activities.

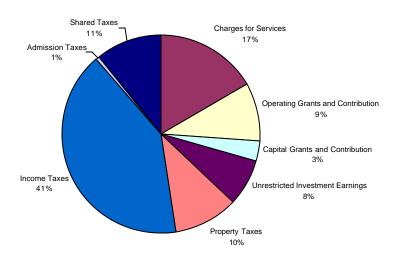

Business-type activities. Business-type activities increased the City's net assets by \$45.1 million, accounting for 46.8 percent of the total growth in the government's net assets. Key elements of this increase are as follows.

- Water Works revenue from charges for service increased \$8.7 million due to a number of factors including a 3% rate increase effective January 1, 2002, the addition of water delivery and other billing services for Mason, Ohio and the increase in customer consumption of water during the very hot summer of 2002.
- Capital contributions emerged as a major revenue source for the Water Works, producing \$10.5 million in revenue from contributed water mains from developers.
- Convention Center net assets increased due to a transfer of \$15.1 million from governmental activities to business-type activities for Convention Center expansion. The City sold notes in anticipation of the Convention Facilities Authority's long-term construction financing.

Financial analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$351.2 million, an increase of \$21.2 million in comparison with the prior year. Approximately 48.7 percent of this total amount constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is reserved to indicate that it is not available for spending because it has already been committed for encumbrances, working capital, inventory, and advances to other funds.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$53.1million, while total fund balance reached \$65.3 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 17.4 percent of total general fund expenditures, while total fund balance represents 21.5 percent of that same amount.

The fund balance of the City's general fund increased by \$16 million during the current fiscal year. Key factors of the increase are as follows:

- Intergovernmental revenues were up due to increase in estate tax collection and timing of receipt of shared taxes.
- Net Operating transfers out from the unreserved fund balance decreased from \$15.3 million in 2001 to \$2 million in 2002. These one-time transfers were primarily to the capital projects fund.

The capital projects fund has a total fund balance of \$188.7 million that is an increase of \$12.8 million over 2001. Contributing to the increase in fund balance was the issuance of \$36.1 million in general obligation bonds that were used for various capital projects and a \$5.6 million state loan for improvements related to the Fort Washington Way project. The expenditures exceeded revenue by \$35.8 before these other financing sources.

The debt service fund has a total fund balance of \$37 million that is reserved for the payment of debt service. The net increase in fund balance was \$2.3 million.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government–wide financial statements, but in more detail.

Unrestricted net assets of the Water Works at the end of the year amounted to \$61.6 million, and the total for the other enterprise funds is \$36.1 million. The total growth in net assets for the Water Works fund was \$26.2 million and the growth in net assets for the other enterprise funds was \$19.6 million. Other factors concerning the finances of these funds have been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The final amended General Fund budget had total appropriations of approximately \$1.2 million more than the original budget. The original appropriations were \$314 million while the final appropriations were 315.2 million. Transfers out not included above were originally budgeted at \$6.3 million but the final budget included net transfers in of \$0.5 million from capital projects.

Differences between the original budget and the final amended budget not including transfers can be briefly summarized as follows:

- \$900,000 increase to the appropriation in Community Development Department to fund public arts programs
- \$75,000 increase to the appropriation in Community Development to pay for community relations monitors
- \$800,000 appropriation for policing efforts per court settlement
- \$525,000 appropriation increase to Police for an expanded police recruiting effort
- \$186,000 appropriation increase for public health nursing
- \$171,000 appropriation increase to Law Department for personnel costs
- \$607,000 appropriation reduction in employee benefits due to pension contribution savings
- \$350,000 appropriation reductions from Public Services
- \$500,000 reserve for contingencies appropriation was decreased and reappropriated to the above Police needs.

The net increases were funded from available fund balance.

Capital Asset and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of December 31, 2002, amounts to \$1.4 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, systems, improvements, machinery and equipment, park facilities, streets, and bridges. The total increase in the City's investment in capital assets for the current fiscal year was 11.1 percent (a 9 percent increase for governmental activities and a 13.3 percent increase for business-type activities).

Major capital asset events during 2002 included the following:

• Total capital assets, net of accumulated depreciation, increased \$141.3 million.

- Governmental activities capital assets increased \$59.8 million in 2002 net of depreciation. \$12.4 million in land to be used for economic development was added in 2002. \$13.7 million in infrastructure from the Intermodel Transit Center on the Riverfront and other infrastructure related to Fort Washington Way projects was added. Street improvements and rehabilitation of \$22.7 million was added in 2002.
- Business-type activities capital assets increased \$81.5 million. The largest increase was water mains that Water Works added to improvements.

Additional information on the City's capital assets can be found in note 14 on pages 58 to 60 of this report.

Long-term debt. At the end of the current fiscal year, the City had \$487.4 million in long-term bonds and notes outstanding. Of this amount, \$379 million comprises debt backed by the full faith and credit of the government. The remainder of the City's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The City's total debt increased by \$4.9 million (1.0 percent) during the current fiscal year. Key events contributing to the change in long-term debt balances are as follows:

- In April 2002 the City issued \$9.1 million general obligation notes for a new parking garage.
- In May 2002 the City issued \$39.3 million various purpose general obligation bonds, primarily for streets.
- In September 2002 the City issued \$7.3 million revenue bonds to finance downtown economic development projects.
- In November 2002 the City issued \$15.1 million general obligation notes for convention center expansion.
- During 2002 \$47.6 million in general long-term bond obligations and \$14.9 million general obligation notes were redeemed. Of the amounts redeemed \$16.2 in general obligation bonds redeemed were for business-type activities.
- During 2002 \$3.4 million revenue bonds were redeemed of which \$2.8 million were for business-type activities.

The City's general obligation bond rating by Standard and Poor's Corporation and Moody's Investor Services, Inc. are "AA+" and "Aa1", respectively.

The City is within all of its legal debt limitations. The Ohio Revised Code provides that the net debt (as defined in the Ohio Revised Code) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. The statutory limitations on debt are measured by the ratio of net debt to tax valuation and expressed in terms of a percentage. The City had a legal debt margin for total debt of \$364.1 million and a legal debt margin for unvoted debt of \$97.7 million.

Additional information the City's long-term debt can be found in note 9 on pages 51-55 of this report.

Economic Factors and Next Year's Budgets and Rates

The national economic slowdown and uncertainty and the local civil unrest in April of 2001 had a significant impact on the Greater Cincinnati area economy. The City's population also continued a decline as documented by the 2000 Census, which revealed a loss of 33,000 residents from 1990 to 2000. As a result, the City's revenue growth dipped by 1.8% in 2002 compared to 2001 and the ten-year trend of 3% annual growth. In contrast, Cincinnati's December 2002 unemployment rate of 4.0 percent compares favorably with December 2002 State and National rates of 4.8 and 5.8, respectively. Cincinnati also continues to lead the region in adding high-paying jobs. In addition, Cincinnati has a diversified economy and a strong transportation network that includes an international airport, the availability of water and rail, and multiple expressways. In an effort to contain expenditures, the City will reduce lower priority services, explore managed competition, and manage staffing and service delivery more efficiently. All of these factors were considered in preparing the City's budget for the 2003 fiscal year. The total 2003 general fund budgeted expenditures are \$307.6 million. In December 2002, the 2003 budget was approved with the elimination of 47.5 filled positions throughout the City.

Requests for Information

The financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, City Hall, Room 250, 801 Plum Street, Cincinnati, Ohio, 45202.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities **Governmental Funds** For the Year Ended December 31, 2002

(Amounts in Thousands)

Net change in fund balances - total governmental funds Amounts reported for governmental activities in the statement of activities are different because: \$ **Total governmental funds** \$ **Total governmental funds** Comparison of the compar	21,189
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$132,843) exceeded depreciation (\$32,863) in the current	
period.	99,980
Capital outlay expensed	(38,670)
Governmental funds report cash received for assets disposed of as revenue. However, in the statement of activities, that cash offsets the difference between the book value and accumulated depreciation of the disposed asset. This is the sum of the cash received (\$849) and the net loss (\$5,194) on the sale of assets.	(6,043)
Statement of activities reports an increase in revenues due to current activity in deferred revenues which is not reported at fund level.	(3,093)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(657)
The long-term liability for compensated absences is not recorded in the fund level, but is reported in the statement of activities. This is the current year change in the liability, reported as an expense in the statement of activities.	(2,647)
The long-term liability for unpaid claims is not recorded in the fund level, but is reported in the statement of activities. This is the current year change in the liability, reported as an expense in the statement of activities.	(2,922)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments.	(20,110)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	434
Bond premiums are included in revenue at the fund level, but capitalized and amortized over the life of the bonds in the government-wide financial statements.	(380)

NOTES TO FINANCIAL STATEMENTS

For the year ended December 31, 2002

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Cincinnati is a political subdivision of the State of Ohio. It is governed with the powers of home rule by a directly elected mayor with a four-year term and a council of nine members who are elected at large for two-year terms. In 2001, Cincinnati converted from a city manager-council form of government, through which it had operated since 1926, to a strong mayor-council form of government.

A. Reporting Entity

The City as a reporting entity consists of only one governmental unit. Cincinnati has no component units - defined as entities for which the government is considered to be financially accountable.

The following organizations are included in the combined financial statements of the City because, under Ohio law, they have limited corporate powers and are therefore not legally separate organizations:

Cincinnati Park Board Cincinnati Recreation Commission City Planning Commission Cincinnati Board of Health Civil Service Commission

Cincinnati owns a railway line, the Cincinnati Southern Railway that was completed in 1881 and extends from Cincinnati, Ohio to Chattanooga, Tennessee, a distance of 335 miles. Improvements have been made at various intervals; the most recent, a major line revision to eliminate tunnel clearance restrictions, grades, and curves, was completed in 1964. Improvements other than buildings in Governmental Activities includes \$83,224,000 attributable to the City's cost to construct and improve this railway system. The railway is leased to the Cincinnati, New Orleans and Texas Pacific Railway Company until December 31, 2026, with an option to extend the lease for an additional 25 years. The lessee is part of the Norfolk Southern Railway System and is its second largest operating unit. Total rental income from the railway lease was \$16,211,000 in 2002 and \$15,852,000 in 2001.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function α segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Interfund receivables and payables between governmental and business type activities have been eliminated in the government-wide statement of net assets. These eliminations minimize the duplicating effect on assets and liabilities within the governmental and business type activities total column. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the city's business type activities and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund financial statements consist of a series of statements focusing on information about the City's major governmental and proprietary funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and a major individual enterprise fund are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the City of Cincinnati for 2002 are prepared in accordance with standards promulgated by the Governmental Accounting Standards Board (GASB). These standards include the effective pronouncements of the National Council on Governmental Accounting and the American Institute of Certified Public Accountants which are considered to be "generally accepted accounting principles" for state and local entities, until they are altered, amended, supplemented, revoked or superseded by a subsequent GASB pronouncement.

The City reports the following major governmental funds:

General Fund is the accounting entity in which all governmental activity, except that which is required to be accounted for in other funds, is accounted for. Its revenues consist primarily of taxes, intergovernmental shared revenues, charges for services, and investment income.

General Fund expenditures represent costs of general government, community development, public safety, public services, public health, parks and recreation, and other. Resources of the General Fund are also transferred annually to support capital projects.

Capital Projects Fund is used primarily to account for resources designated to construct or acquire governmental fund fixed assets. Such resources are derived principally from proceeds of general obligation debt, federal and state grants and City income tax (see Note 11). It is the City's policy to use the proceeds derived from the sale of bonds only for the capital improvement purpose detailed in the bond-authorizing ordinance and in accordance with state statutes. Any premium and accrued interest received from the sale of bonds is deposited into the Debt Service Fund.

Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on general obligation debt and capital lease payments of the governmental funds.

The City reports the following major proprietary fund:

Water Works Enterprise Fund accounts for all activities of the City's Water Works Department. The City collects, purifies, and sells water to Greater Cincinnati Area residents. Revenues consist primarily of user charges.

The City reports the following fund types:

Internal service funds account for reproduction and printing; automotive repairs and maintenance services; stores; land sales and leasing; employee medical costs; workers' compensation; and data processing services to other departments or agencies of the City, or to other governments. Internal service funds are used to account for the financing of goods or services provided by one department or agency to another department or agencies of the government, generally on a cost reimbursement basis.

Pension Trust Fund – This fund is used to account for the receipts and expenditures of the City's Retirement System.

External Investment Pool – This fund is used to account for the Metropolitan Sewer District Fund portion of the City's pool of cash and investments.

Agency Funds – These funds are used to account for assets held by the City in a fiduciary capacity. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Measurement Focus

Except for budgetary purposes, the basis of accounting used by the City conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The government-wide, proprietary funds and fiduciary funds financial statements are reported using the economic resources measurement focus. The government-wide and proprietary funds financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, property taxes, grants, shared revenues, and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the taxpayer's liability occurs and revenue from property taxes is recognized in the fiscal year for which the taxes are levied. On an accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the fiscal year in which all eligibility

requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when the related liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Inventories of materials and supplies may be considered expenditures either when purchased or when used, and prepaid expense items may be considered expenditures either when paid for or when consumed. Proceeds of general long-term debt are reported as other financing sources.

Income taxes, delinquent property taxes, liquor permits, fines, local government fund, gasoline tax, and motor vehicle license fees for the current and prior periods are determined to be susceptible to accrual and are recognized as revenue in the current accounting period. All other major revenues of governmental funds are determined not to meet the criteria of either being measurable or available. The proprietary fund type statements are prepared utilizing the flow of economic resources measurement focus and the accrual basis of accounting for revenues, which are recognized when they are earned, and for expenses, which are recognized when they are incurred. Unbilled service receivables are recognized by proprietary funds when the services are provided.

The fiduciary fund types recognize revenue and expenditures/expenses on a basis consistent with the fund's accounting measurement objective. The pension trust fund and the external investment pool statements are prepared utilizing the flow of economic resources measurement focus and the accrual basis. Agency fund statements are prepared utilizing the flow of financial resources measurement focus and the modified accrual basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Other Accounting Policies

- **A.** *Investments* The investments of the City (excluding the City of Cincinnati's Retirement System, (see Note 2) are comprised primarily of time deposits and other securities guaranteed by the United States Government or its agencies and are stated at fair value based on quoted market prices.
- **B.** *Inventories* Inventories are valued at cost using either the moving weighted average or the first-in, first-out method. Inventories in the governmental funds and the proprietary funds are recorded using the consumption method whereby inventories are recorded as expenditures or expenses when they are used.
- **C.** *Insurance* The City maintains a comprehensive all risk property insurance program that provides insurance coverage for approximately \$818 million in property values. In addition certain enterprise funds

carry insurance coverage for specific purposes as determined by management. An estimated liability for uninsured losses is reported as required by Governmental Accounting Standards Board Statement 10 - Accounting and Financial Reporting for Risk Financing and Related Insurance Issues. State law authorizes the issuance of judgment bonds to settle claims. The City's available legal debt margin of \$98 million at December 31, 2002, is considered adequate for catastrophic loss coverage.

D. *Inter-Fund Transactions* - During the course of normal operations, the City has numerous transactions between funds including expenditures/expenses, advances and transfers of resources to provide services, construct assets and service debt. The governmental and proprietary fund type financial statements generally reflect such transactions as transfers or advances. The internal service funds record charges for services to City departments as operating revenue. All City funds record these payments to the internal service funds as operating expenditures/expenses. The proprietary funds record operating subsidies as other income whereas the fund paying the subsidy records it as either an expenditure/expense or transfer. Transfers are intended to reallocate money permanently from one fund to another. Advances represent the long-term portion of loans between funds. Quasi-external transactions are accounted for as revenues, expenditures, or expenses in the funds involved. The General Fund provides administrative services to enterprise funds. The amounts charged for those services are treated as revenue to the General Fund and as operating expenses in the enterprise funds.

E Capital Assets

Capital assets which include property, plant and equipment, and infrastructure (e. g. roads, streets, bridges and retaining walls) are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The City defines capital assets as assets with an individual cost of \$5,000 or more (\$100,000 for governmental infrastructure assets) and an estimated useful life in excess of one year. Such assets are capitalized at historical cost, or estimated values that approximate historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the time of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the City is depreciated using the straight-line method over the following estimated useful lives:

Water Mains	100 years
Buildings and Improvements	25-70 years
Infrastructure	15-25 years
Machinery and Equipment	5-40 years
Automotive Equipment	3-20 years

F. Deferred Revenues - The City reports deferred revenue on its governmental funds balance sheet. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Certain intergovernmental receivables, uncollected assessments and miscellaneous receivables not meeting the availability criteria have been deferred and will

be realized in a subsequent period in the governmental funds.

- **G.** Grants and Other Intergovernmental Revenues The proprietary fund types recognize the federal reimbursement-type capital grants as intergovernmental receivables and capital contributions as the related expenses are incurred. All other federal reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures are incurred. On an accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the City.
- **H.** Operating Revenues and Expenses The City, in its proprietary funds, distinguishes operating revenues and expenses form nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.
- I. Capitalization of Interest Interest is capitalized by the City in proprietary fund types when it is determined to be material. The City capitalizes interest in accordance with Statement of Financial Accounting Standard No. 62, Capitalization of Interest Costs in Situations Involving Certain Tax-Exempt Borrowings and Certain Gifts and Grants. This statement requires that the interest cost capitalized during construction be reduced by interest income earned on investments of the bond proceeds from the date of the borrowing until the assets constructed from the bond proceeds are ready for their intended use.
- **J.** Statement of Cash Flows For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments held by trustees, with a maturity of three months or less when purchased, to be cash equivalents. In addition, all cash and temporary investments with the City Treasurer are also considered to be cash equivalents since they are available to the proprietary funds on demand. The temporary investments, primarily consist of certificates of deposit and U. S. Treasury securities that have maturities of up to two years.
- **K.** Pronouncements Effective for the 2002 Financial Statements With this financial report the City has changed its financial reporting to comply with Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Managements Discussion and Analysis for State and Local Governments. As part of the implementation of GASB Statement No. 34, the City is reporting the historical cost of infrastructure assets (retroactive to 1980) as part of the governmental capital assets reported in the government-wide statement. Thus, the depreciated value of construction cost for streets, bridges and retaining walls is reported. In conjunction with implementation of GASB Statement No. 34, the City has implemented GASB Statement No. 37, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus and GASB Statement No. 38, Certain Financial Statement Note Disclosures, which rescinds some and modifies other financial statement disclosure requirements.
- L. Pronouncements Issued But Not Yet Effective Governmental Accounting Standards Board (GASB) Statement Number 39, Determining Whether Certain Organizations are Component Units. This Statement was issued in May 2002 and amends Statement Number 14 to provide additional guidance to determine whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their

relationship with the primary government. This Statement is effective for financial statements for periods after June 15, 2003.

Governmental Accounting Standards Board (GASB) Statement Number 40, *Deposit and Investment Risk Disclosures* was issued in March 2003 and amends Statement 3. This statement addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. As an element of interest rate risk, this Statement requires certain disclosures of investments that have fair values that are highly sensitive to changes in interest rates. Deposit and investment policies related to the risks identified in this Statement also should be disclosed. This Statement is effective for financial statements for periods beginning after June 15, 2004.

M. Working Capital Reserve - City Council established standards for a minimum working capital reserve account in 1984 to assure a strong financial position and to protect Cincinnati's general obligation bond rating during periods of fiscal stress. The policy called for achievement of a minimum reserve level, for emergency needs of a catastrophic nature, of no less than 5% or more than 8% of general operating revenues by December 31, 1986. The targeted year-end reserve level was achieved in January of each year 1985 through 2002. The working capital reserve for 2002 was \$20,362,000 and is included in the Fund Balance Reserved for Working Capital in the Capital Projects Fund. The City is a chartered government and the working capital reserve, as established, is allowed by the charter.

2. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

The City of Cincinnati combines the cash balances in individual funds to form a pool of cash and investments. Each fund reports its respective equity in City Treasury cash as an element of its resources. In addition, several funds separately hold cash and equivalents and investments, which are appropriately identified, in the combined balance sheet of the City. Earnings from the pooled cash and investments are allocated on a quarterly basis to each participating fund based on month-end equity balances. The data presented in the accompanying financial statements is for the City of Cincinnati as a whole.

Deposits

At year-end the carrying amount of the City's deposits, including certificates of deposit with various financial institutions was \$181,924,000 and the bank balance was \$192,443,000. The entire bank balance is held in the name of the City and is collateralized either by federal depository insurance or securities pledged as collateral and segregated by the Federal Reserve Bank in a pledge account. The collateral is held by the City's agent in the City's name; it cannot be released by the Federal Reserve Bank without the City's approval.

Statutes specify that the City Treasurer require institutions designated as a public depository to pledge and to deposit with the Treasurer's office, as security for the payment of all public moneys to be deposited in the public depository during the period of designation, eligible securities of an aggregate market value equal to the excess of the amount of public monies that are at the time so deposited over and above such portion or amount of such money as is at such time insured by the Federal Deposit Insurance Corporation, or by any other agency or instrumentality of the federal government. As an alternative, the City Treasurer may require such institution to deposit with him surety company bonds which, when executed, shall be for an amount equal to such excess amount.

Excluded from these amounts are deposits held by the City's Retirement System for which the year-end book and bank balances totaled \$77,341,000 and \$77,441,000, respectively. These funds are not subject to the same insurance and collateralization requirements as the City's deposits and are uncollateralized.

Investments

The fair value of investments for the City at December 31, 2002 was \$538,146,000. These investments include \$537,359,000 in U. S. Treasury Securities and \$787,000 in Equity Securities. The City is legally authorized to invest in obligations of the U.S. Treasury, federal agencies or instrumentalities, obligations of the State of Ohio and its political subdivisions and repurchase agreements. All investments of the City of Cincinnati are insured or registered, or are securities held by the City or its agent in the City's name. The City Treasurer may enter into a repurchase agreement of United States Treasury obligations or other obligations for which the full faith and credit of the United States is pledged for the payment of principal and interest, or obligations or securities issued by any federal government agency. The City has not used reverse repurchase agreements or derivatives as investment instruments.

Excluded from the City's investments discussed above are assets held in trust by the City's Retirement System and Park Board. The fair value of investments for these funds at December 31, 2002 was \$1,892,767,000. These investments include \$387,824,000 in U. S. Treasury Securities, \$247,684,000 in Corporate Bonds and Notes, \$15,668,000 in Venture Capital and \$1,241,591,000 in Equity Securities. In those cases where resources are maintained in trust, authority for investment of the property rests with either the trust agreement or local ordinance. Investments of the City of Cincinnati Retirement System are, by ordinance, subject to certain terms and limitations. The limitations do not apply to investments in securities of the City and federal government or their agencies. Investments of the City of Cincinnati Retirement System and Park Board are uninsured, with securities held by the counterparty, or by its trust department or agent but not in the City's name. The investment in Venture Capital is not considered an investment in a security for purposes of credit risk classification since it is not evidenced by securities that exist in physical or book entry form.

Securities Lending

City statutes and board of trustee policies permit the City of Cincinnati Retirement System to use investments of the plan to enter into securities lending transactions – loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same security in the future. Securities are loaned in exchange for collateral that may include cash, U.S. government securities and irrevocable letters of credit. U.S. securities are loaned in exchange for collateral valued at 102% of the market value of the securities plus any accrued interest. Non-U.S. securities are loaned in exchange for collateral valued at 105% of the market value of the securities plus any accrued interest. Collateral cannot be pledged or sold unless the borrower defaults. The borrower is required to pay to the Lender the equivalent of all interest and dividends that are paid by the issuer during the term of the loan. All securities loans can be terminated on demand by either the lender or the borrower, although the average term of the System's overall loans was 25 days in December 2002. Cash collateral is invested in a short-term investment pool, which had an average weighted maturity of 40 days as of December 31, 2002. Cash collateral may also be invested separately in "term loans", in which the maturity of the term loan is always identical to either the maturity of the cash collateral invested or the interest rate reset of the cash collateral invested. These loans can be terminated on demand by either lender or borrower. As of December 31, 2002 there were no violations of legal or contractual provisions, no borrower or lending agent default and no losses known to the securities lending agent. There are no dividends or coupon payments owing on the securities lent.

The following represents the balances relating to the securities lending transactions at the financial statement date:

Derivatives

Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. The retirement system enters into certain derivative financial instruments primarily to enhance the performance and reduce the volatility of the portfolio. It purchases S&P 500 futures contracts to gain exposure to the U.S. equity market, fixed income futures contracts and options to manage interest rate risk, and foreign exchange contracts are used occasionally to hedge foreign currency exposure. The retirement system's fixed income managers are authorized to invest in mortgage-backed securities (MBS), commercial mortgage-backed securities (CMB), collateralized mortgage obligations (CMO) and asset-backed securities (ABS). MBS securities are issued by government agencies and instrumentalities such as the FHA, FNMA, GNMA, FHLMC, while CMB and CMO securities are issued by non-government corporations. ABS securities are supported by loans which are secured by first residential mortgages, home equity mortgages, auto loans, credit card receivables, etc.

At December 31, 2002 the retirement system held the following derivative positions:

- 1.) Futures contracts maturing March 31, 2003 to buy S&P 500 index securities with a notional value of approximately \$50.5 million.
- 2.) Futures contracts maturing March 31, 2003 to sell U.S. Treasury securities with a notional value of \$35.1 million.
- 3.) Government issued mortgage-backed securities with a market value of \$229.2 million.
- 4.) Commercial mortgage-backed securities with a market value of \$9.7 million.
- 5.) Commercial mortgage obligations with a market value of \$24.0 million.
- 6.) Asset-backed securities with a market value of \$35.2 million.

The retirement system held no foreign exchange contracts or options on fixed income securities as of December 31, 2002.

3. EXTERNAL INVESTMENT POOL

On April 10, 1968, the Board of County Commissioners of Hamilton County and the City of Cincinnati consolidated all County and City sanitary sewer facilities, under the direction and control of the Board of County Commissioners and the management and operation of the City. The cash balance in the fund established for this purpose, the Metropolitan Sewer District fund (MSD), is combined with the City's pool of cash and investments. For the purposes of financial reporting, the MSD portion of the City's pool of cash and investments is reported as an External Investment Pool. Assets in the pool are reported at fair value based on quoted market prices. The pool is not subject to regulatory oversight. Fair value amounts are determined at year end. The City has not provided or obtained any legally binding guarantees to support the value of the External Investment Pool. MSD is required by Chapter 301 of the Cincinnati Municipal Code to participate in the External Investment Pool. Disclosures required by GASB Statement 3 are discussed in Note 2. The External Investment Pool does not issue a separate report. The External Investment Pool's financial statements can be found on pages 32 and 33.

Summary by major investment classification:

(AMOUNTS IN THOUSANDS)						
	Cost	Fair Value	Interest Rate	Maturity Dates

Cash	185	185				
Total	\$28,890	\$29,233				

4. ANTHEM DEMUTUALIZATION

In October of 2001, Anthem Inc., which administers the medical insurance for the City's employees, converted, or demutualized, from a mutual insurance company (a policyholder-owned non-profit) to a forprofit stock insurance company. As a result of that conversion, all statutory member policyholders received a one-time payout of stock. Since the City was a policyholder, in December of 2001 it received 870,021 shares of Anthem Inc. common stock worth approximately \$31,000,000 at that time. The shares were recorded in the Capital Projects Fund.

Under the Ohio constitution, municipalities are prohibited from owning stock. However, the State Auditor recommended "that each public body receiving stock should sell the stock at a reasonably prompt and beneficial time at the discretion of the public body." There were also legal restrictions on selling shares of stock in the 180 days after the initial public offering. Those restrictions expired on April 28, 2002. Before then the City was a participant in the Large Shareholder Program which limited the number of shares to be sold daily until the 180-day restriction lapsed.

The total proceeds received were \$54,761,000 from all of our stock sales between February 26 and April 30, 2002. The lowest price per share for which the stock was sold was \$55.91 on March 8, 2002, and the highest was \$71.06 on April 26, 2002.

5. INTERFUND ASSETS/LIABILITIES

The composition of interfund balances as of December 31, 2002, is as follows (amounts in thousands):

DUE FROM/TO OTHER FUNDS

	Due From

6. INTERFUND TRANSFERS

Interfund transfers for the year ended December 31, 2002, consisted of the following (amounts in 000s):

				<u>Transfers C</u>	<u>Out</u>		
		Capital	Debt		Internal	Non Major	
	General	Projects	Service	Nonmajor	Service	Enterprise	
	<u>Fund</u>	Fund	Fund	Governmental	Funds	<u>Fund</u>	<u>Total</u>
Transfers In							
General Fund	\$	\$ 9,596	\$	\$	\$ 92	\$	\$ 9,688
Capital Projects Fund	8,686		32,731	6,259	2,180		49,856
Debt Service Fund	2,966	11,697		927			15,590
Nonmajor							
Governmental Funds		390		339	136	887	1,752
Internal Service							
Funds	68	5,958		2,661			8,687
Nonmajor Enterprise							
Funds		15,303			41		15,344
Total	\$11,720	\$ 42,944	\$ 32,731	\$ 10,186	\$ 2,449	\$ 887	\$ 100,917

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

7. SEGMENT INFORMATION

The City has issued bonds to finance parking facilities, municipal golf, and stormwater management facilities and improvements. The revenues of these activities are relied on for repayment of these bonds but property tax support is available, if necessary. Summary financial information for these funds is presented below.

8. LEASES

CITY AS LESSEE

Operating Leases

The City has entered into various leases for property, equipment and office space. These leases are considered for accounting purposes to be operating leases. The total cost for such leases were \$1,670,000 for the year ended December 31, 2002. Future minimum lease payments are as follows:

(AMOUNTS IN THOUSANDS)

<u>Year</u>	Amount
2003	\$ 744
2004	670
2005	456
2006	276
2007 and future years	549
Total Future Minimum Lease Payments	<u>\$ 2,695</u>

Capital Leases

The City has capitalized leases for the following property and equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

(AMOUNTS IN THOUSANDS)

	Business-type <u>Activities</u>	Governmental <u>Activities</u>
Leased Property/Equipment	\$ 637	\$ 2,141
Less: Accumulated Depreciation	365	1,812
Total	<u>\$ 272</u>	<u>\$ 329</u>

The following is a schedule of future minimum capital leases and the present value of the net minimum lease payments at December 31, 2002:

	Business-type	Governmental
<u>Year</u>	<u>Activities</u>	<u>Activities</u>
2003	\$ 70	\$ 143
2004		13
2005		14
2006		13
Total minimum lease payments	70	183
Less: Amounts representing interest	<u> </u>	12
Present value of net minimum		
lease payments	<u>\$ 69</u>	<u>\$ 171</u>

CITY AS LESSOR

The City has entered into various contractual agreements for the rental of properties to various commercial enterprises, which are reported as operating leases for accounting purposes.

Amounts relating to the operating leases as of December 31, 2002 are included in the financial statements of the following:

(AMOUNTS IN THOUSANDS)

	Business-type <u>Activities</u>	Governmental <u>Activities</u>
Land	\$ 537	\$ 2,056
Buildings	5,208	3,181
Improvements	483	83,267
Accumulated Depreciation	3,439	78,168
Depreciation Expense	156	708

Future minimum rentals on non-cancelable operating leases as of December 31, 2002 are as follows:

(AMOUNTS IN THOUSANDS)

<u>Year</u>	Business-type <u>Activities</u>	Governmental <u>Activities</u>	
2003	\$ 890	\$ 16,663	
2004	857	16,642	
2005	642	16,627	
2006	504	16,582	
2007	374	16,397	
Remaining years	<u>765</u>	291,988	
Total Future Minimum Rental Payments	<u>\$4,032</u>	<u>\$374,899</u>	
Total Rentals for 2002:	\$ 928	\$16,265	

Future minimum rentals of the railway line, recorded in Debt Service Fund, are assumed to equal the payments calculated for the current year. These minimum rentals are included in the Governmental Activities column.

Enterprise Funds

The General Aviation rentals (included in business-type activities) do not include contingent rentals which may be received on the basis of hours or usage in excess of stipulated minimums. Terms of the leases are

normally on a five year basis with renewal options not to exceed fourteen years.

Governmental Fixed Assets

The City-owned railway line, the Cincinnati Southern Railway, is leased to the Cincinnati, New Orleans, and Texas Pacific Railway Company until December 31, 2026, with a renewal option of twenty-five years. Pursuant to the Ohio Revised Code, the use of the rental income from the railway line is restricted to debt service.

During 1995, the City entered into a lease involving land with American Commercial Marine. The lease is for ten years, beginning January 1, 1996 and ending December 31, 2005.

9. LONG-TERM DEBT

General Obligation Bonds and Notes

The City issues general obligation bonds and notes to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. The original amount of general obligation bonds and notes issued in prior years was \$608,712,000.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. General obligation bonds and notes currently outstanding are as follows:

(AMOUNTS IN THOUSANDS)

Purpose	Interest Rates	<u>Amount</u>
Governmental activities	2.5% - 8.0%	\$294,970
Business-type activities	3.5% - 7.0%	84,067
		\$379,037

The annual debt service requirements to maturity for the general obligation bonds and notes are as follows:

Year Ending	Governmen	ntal Activities	Business-type	Activities
December 31	Principal	<u>Interest</u>	Principal	<u>Interest</u>
2003	\$ 44,748	\$ 14,760	\$16,222	\$ 3,893
2004	30,142	12,986	22,687	2,888
2005	22,647	11,478	11,590	2,050
2006	19,778	10,410	9,698	1,485
2007	18,550	9,465	7,470	1,030
2008-2012	66,430	35,590	12,600	2,172
2013-2017	50,640	20,065	3,800	235
2018-2022	17,880	9,628		
2023-2027	7,670	6,375		
2028-2032	10,265	3,786		
2033-2035	6,220	673		
Total	<u>\$294,970</u>	<u>\$135,216</u>	<u>\$84,067</u>	<u>\$13,753</u>

Revenue Bonds

The City also issues bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. The net revenues of the Water Works are pledged to pay Water Works revenue bonds debt service. The original amount of revenue bonds authorized in prior years was \$115,375,000 and \$106,060,000 was issued in prior years. During 2002, \$7,270,000 of revenue bonds were issued to finance Economic Development projects.

Revenue bonds outstanding at year-end are as follows:

(AMOUNTS IN THOUSANDS)

Purpose	Interest Rates	<u>Amount</u>
Economic Development	Various	\$ 17,845
Urban Renewal	Various	677
Water Works	Various	89,885

\$108,407

The annual debt service requirements to maturity for the revenue bonds are as follows:

Year Ending	Governmenta	Governmental Activities		e Activities
December 31	Principal	<u>Interest</u>	Principal	Interest
2003	\$ 887	\$ 1,161	\$ 2,935	\$ 4,620
2004	1,668	1,105	3,075	4,480
2005	1,718	1,022	3,225	4,332
2006	1,770	931	3,375	4,180
2007	1,837	834	3,545	4,009
2008-2012	7,297	2,525	20,440	17,347
2013-2017	3,345	556	26,525	11,251
2018-2021			26,765	3,463
Total	<u>\$18,522</u>	<u>\$8,134</u>	<u>\$89,885</u>	<u>\$53,682</u>

Internal Service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year-end, \$2.2 million of compensated absences, \$19.5 million of unpaid claims, and \$157,000 of capital leases for the internal service funds are included in the above amounts.

State Infrastructure Bank Loan

On May 19, 1999 City Council authorized the City Manager to amend the repayment terms of an April 30, 1998 note agreement the City had made with the Ohio Department of Transportation, State Infrastructure Bank. The loan to the City has an original principal amount not to exceed \$20,020,000 and was issued for the purpose of paying a portion of the Fort Washington Way Improvement project costs. The terms of the original note agreement required that the loan be repaid 18 months from the date of the initial disbursement

under the note. The initial disbursement was made on May 29, 1998, so the first payment was required on November 29, 1999. Under the terms of the new loan agreement, the City was obligated to pay accrued interest and a principal payment of \$5,000,000 on February 1, 2000. On February 1, 2001, the City made a second principal payment of \$5,000,000 from a federal grant received from Fort Washington Way. Principal and interest payments were made also on August 1, 2001 and February 1, 2002. In August of 2002 an additional \$587,000 was drawn down.

On January 24, 2001 City Council authorized the City Manager to borrow an additional \$5,020,000 from the Ohio Department of Transportation. The first disbursement on this loan was made August 13, 2002.

10. DEBT LIMITATION

The City's "indirect" (ten mill) debt limit was removed by decision of the Ohio courts. In September 1977, the Supreme Court of Ohio dismissed an appeal from the decision of the Court of Appeals, First Appellate District, Hamilton County, Ohio, involving the City's debt limitations. In summary, the City instituted a test case against the Director of Finance for the purpose of obtaining a definitive construction of certain sections of the City Charter bearing on the right of the City to levy taxes in excess of the ten mill limitation of Section 5705.02 of the Ohio Revised Code. As a result of the Court decision, the City has the right to levy property taxes without limitation to support its lawfully issued bonds and notes, and the City's ability to incur debt will be limited only by the arithmetical (percentage) limitations set forth under Section 133.03 of the Ohio Revised Code.

Section 133.03 provides that the principal amount of both voted and unvoted debt of the City may not exceed 10-1/2% of the City's assessed valuation, and the principal amount of the City's unvoted debt may not exceed 5-1/2% of the City's assessed valuation. The Code also provides several exemptions of debt from the 5-1/2% and 10-1/2% limitations.

11. TAXES

City Income Tax

This locally levied tax applies to gross salaries, wages and other personal service compensation earned by residents both in and out of the City and to earnings of nonresidents (except certain transients) earned in the City. It also applies to net income of business organizations for business conducted in the City. The tax is the largest single source of General Fund revenue.

The City's income tax of 2.1% is subdivided into four components. The first component is the latest increase of .1% enacted July 1, 1988, to be spent only for the maintenance of the City's infrastructure. The second component is the .3% which can be used only for public transit purposes, including both capital and current operating expense. The third component is .15%, which can be used only for permanent improvement purposes. The remaining 1.55% is first used to meet annual deficiencies, to the extent required, in the General Fund. The amount of the 1.55% income tax revenue over the fixed allocation to the General Fund at the end of any year is recognized as revenue in the Income Tax Permanent Improvement Fund. The unused amount can be carried forward for subsequent year capital or operating needs.

Actual collections of \$185,258,461 for the 1.55% portion in 2002 were less than the original allocation of \$191,830,000 for the General Fund. The following table identifies the excess 1.55% income tax collections for the years 1998 through 2002 and collections in excess of allocation:

(AMOUNTS IN THOUSANDS)

	Actual		Collections
	Collections	Allocation	in Excess of
<u>Year</u>	of 1.55%	to General Fund	Allocation
1998	174,335	164,300	10,035
1999	182,695	180,500	2,195
2000	183,035	183,035	
2001	188,598	188,598	
2002	185,258	185,258	

Property Taxes

The assessed valuation of property within the City subject to the levy of ad valorem taxes includes real property, public utilities property and tangible personal property. The assessed value upon which the 2002 levy was based was \$4,379,262,000, \$304,549,000 and \$644,918,000 for real property, public utility property and tangible personal property, respectively (per Hamilton County Auditor). The City's property taxes are collected by the Hamilton County Auditor and are remitted to the City on a periodic basis. Real property taxes collected in any calendar year are generally levied on assessed values as of January 1 of the preceding year according to the following calendar:

Property Tax Calendar - 2003

Lien date	January 1, 2002
Levy date	October 31, 2002
First installment payment due	January 31, 2003
Second installment payment due	June 20, 2003

Assessed values are established by the County Auditor, at no more than 35% of appraised market value. The laws of the State of Ohio presently require that all property be revalued no less than every six years, at any time the County Auditor finds that true or taxable value thereof has changed, and in the third calendar year following the year in which a sexennial reappraisal is completed if ordered by the State Commissioner of Tax Equalization. Real property was reappraised during 2002 with the results affecting collections beginning in 2003. The City recognizes the property taxes due to be paid in 2003 as deferred revenue since the first settlement date is more than sixty days after year-end and does not meet the availability criteria for accrual.

Public utilities property taxes in any calendar year are those levied on assessed values as of December 31 of the preceding year. Tangible personal property of public utilities is assessed at various percentages of true value. Tangible personal property used in business, other than public utilities, is assessed at 25% of true value.

12. SHORT-TERM DEBT – BOND ANTICIPATION NOTES

The City issues bond anticipation notes in advance of issuance of bonds, depositing the proceeds in its capital projects fund. These notes are necessary to provide adequate funds at the time needed to support contracts for the improvements prior to issuance of the related bonds.

(AMOUNTS IN THOUSANDS)

	Beginning			Ending
	Balance	<u>Issued</u>	Redeemed	Balance
Bond Anticipation Notes	\$0	\$32,731	\$32,731	\$0

13. RESTRICTED ASSETS

The balance of the restricted asset accounts in the enterprise funds are as follows (amounts in thousands):

Revenue bond construction account – Water Works	\$ 3,214
Revenue bond reserve account – Water Works	8,554
Revenue bond construction account – Parking Facilities	8
Customer deposits – Water Works	941
Construction account - other - Water Works	5,378
Total restricted assets	<u>\$18,095</u>

Stormwater Management	11,426	3,661	<u>7,765</u>	
Totals	\$226,180	\$136,632	\$89 <u>.548</u>	\$ 9,471

15. RECEIVABLES

Accounts Receivable are presented in the general purpose financial statements net of the allowance for uncollectible accounts. The uncollectible accounts related to the General Fund at December 31, 2002, are as follows: Taxes Receivable (\$1,986,000) and other accounts receivable (\$3,761,000). The uncollectible accounts related to the Debt Service Fund at December 31, 2002 are Taxes Receivable (\$2,020,000). The balance for the allowance for doubtful accounts in the Capital Projects Fund at December 31, 2002 is (\$1,248,000). The balances of the allowance accounts of the proprietary funds as of December 31, 2002 are as follows: Water Works (\$2,102,000), Regional Computer Center (\$5,000), Convention Center (\$176,000), General Aviation (\$6,000), Municipal Golf (\$3,000), Parking Facilities (\$5,000), and Stormwater Management (\$480,000).

Loans receivable of the special revenue funds are made from revolving type loan accounts financed by allocations from the City's Community Development Block Grant. These loans are secured by liens on the property. Federal regulations provide that the grantor maintains the ownership of the City's Community Development Block Grant funded revolving loan portfolio; accordingly, revolving loan fund transactions do not affect the operating statement. A small number of the special revenue loans, with a value of \$2,752,000, were made from Housing and Urban Development Section 108 funds and do not involve a revolving type loan account. The loans are repaid to the federal government. If the borrower fails to repay the loan, the City's Community Development Block Grant funds may be used to repay the federal government. The total amount receivable for the special revenue loans is offset by an allowance for uncollectible loans receivable. Special revenue loans receivable at December 31, 2002 total \$55,149,000.

Loans receivable of the capital project funds receive similar treatment to the special revenue funds' loans receivable, in that the total amount receivable is offset by an allowance for uncollectible loans receivable. The balance of the loans receivable at December 31, 2002 is \$1,245,000. This amount is related to Goodall Properties Ltd. and forgivable housing loans.

16. CONTINGENT LIABILITIES

Federal and State Grants

The City has received Federal and State grants in excess of \$52 million for specific purposes that are subject to review and audit by the grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the City Administration believes such disallowances, if any, will be immaterial.

Litigation

Various claims and lawsuits are pending against the City as of December 31, 2002. A liability of \$6.4 million was recorded for those claims and judgments as of December 31, 2002. Over the past decade, the City has averaged annual payments of \$1,575,000 for claim and lawsuit settlements. Adequate funds have been provided to meet the claims paid both from the General Fund and restricted funds of the City. The City Administration believes there is no foreseen problem in having adequate resources to settle presently known cases.

17. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; employee health claims; unemployment compensation claims; and environmental damage. The City purchases commercial insurance to cover losses due to: theft of, damage to, or destruction of assets and purchases general liability insurance for specific operations and professional liability insurance for certain operations. All other risks of loss are self-insured by the City. There has been no reduction in insurance coverage from coverage in 2002. Insurance settlements for claims resulting from the risks covered by commercial insurance have not exceeded the insurance coverage in any of the past three years.

The City of Cincinnati provides the choice of three separate health insurance plans for its employees. All of the plans are self-insured and accounted for as an internal service fund. This internal service fund, titled "Self Insurance - Medical" has been in existence since 1980. Operating funds are charged a monthly rate per employee, by type of coverage.

In 1990, the City began to account for and finance its risk of loss due to workers' compensation claims and established an internal service fund titled "Self Insurance - Workers' Compensation". Workers' compensation is administered by the State under a retrospective rating plan. The City reimburses the Bureau of Workers' Compensation for injured workers' claims. All funds of the City participate in the program and make payments to the internal service fund based on the experience premium that would normally be charged by the Bureau of Workers' Compensation. Changes in the balances of claims liabilities and claims adjustment expenses during 2002 and 2001 are as follows:

	Ge <u>2002</u>	neral <u>2001</u>	Water <u>2002</u>	Works 2001	Parkin	g Faciliti 2001		vention Center <u>2001</u>		icipal Golf 2001	Capit Proj 2002	ects 2001

The claims liabilities at December 31, 2002 for the Internal Service Funds above (Self-Insurance Medical and Workers Compensation) are included in the following liabilities in the balance sheet:

(AMOUNTS IN THOUSANDS)

	Self Insurance Medical	Workers Compensation
Accounts Payable	\$2,494	\$ 3
Accrued Liabilities		5,533
Estimated Liability For Unpaid Claims	<u>6,000</u>	<u>13,536</u>
Total	<u>\$8,494</u>	<u>\$19,072</u>

18. SUBSEQUENT EVENTS

As of January 1, 2003, the City of Cincinnati has elected to be self-insured under the workers' compensation laws of Ohio.

On January 29, 2003, City Council authorized the taking of bids on \$112,360,000 of Water Works revenue bonds to be dated March 1, 2003. The bonds issued were sold at coupon rates from 2.0% to 5.0%, but with a bid premium of \$4,546,306 the effective rates were 1.25% to 4.67%.

April 9, 2003 City Council authorized the taking of bids on \$52,705,000 of general obligation bonds to be dated May 1, 2003. The 4 bond issues sold at coupon rates from 2.00% to 4.00%, but with a bid premium of \$736,594 and original issue discount of \$23,930 the effective rates were from 1.34% to 4.10%,. The bonds include tax supported issues of \$25,700,000 for Street Improvements, \$6,210,000 for Public Building Improvements, \$11,090,000 for Equipment Improvements, \$9,705,000 for Urban Redevelopment Improvements Refunding.

19. PENSION AND RETIREMENT

City employees are covered by one of three pension systems. They are the Ohio Police and Fire Pension Fund (OP&F) and the Public Employees Retirement System (PERS), which are State pension systems, and the City of Cincinnati's Retirement System. Each of these three systems is a cost-sharing multiple-employer defined benefit pension plan.

Ohio Police and Fire Pension Fund

Plan Description

Police and Fire Fighters of the City of Cincinnati are members of the Ohio Police and Fire Pension Fund. The City of Cincinnati contributes to the (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Contribution requirements and benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. The OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy

Plan members are required to contribute 10.0% of their annual covered salary, while the City of Cincinnati is required to contribute 19.5% and 24% respectively for police officers and fire fighters. The City of Cincinnati's contributions to OP&F for the years ending December 31, 2002, 2001, and 2000 were \$21,989,000, \$21,857,000, and \$21,005,000, respectively, equal to the required contributions for each year including the installment payments on the unfunded prior service cost for 2000.

The OP&F informed the City that the City's only unfunded prior service cost of the fund is the deficiency existing at the time the fund was established in 1967 as determined by actuarial evaluation. On March 1, 2000 the City sold bonds for the refunding of the City's obligation for the employer's accrued liability. Pursuant to Section 742.30 of the Ohio Revised Code, the City and the OP&F (the Fund) have entered into an agreement which permitted the City to make a one-time payment to the Fund for the purpose of extinguishing the City's obligation to the Fund for employer's accrued liability. The payment amount was \$41,454,864 which represents 68% of the first \$500,000 of the employer's accrued liability and 70% of the balance, plus accrued interest on the full amount of such accrued liability from March 1, 2000 to the date of payment.

Other Post employment Benefit Information

OP&F provides post-retirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. The health care coverage provided by the police and firefighters' retirement system is considered an Other Postemployment Benefit (OPEB). A portion of each employer's contribution to the Police and Fire Pension Fund is set aside for the funding of postemployment health care. The Ohio Revised Code provides the statutory authority allowing the fund's board of trustees to provide health care coverage to all eligible individuals. Health care funding and accounting are on a pay-as-you-go basis. In 2002, 7.75% of covered payroll was used to pay retiree health care expenses. In addition, since July 1, 1992 most retirees have been required to contribute a portion of the cost of their health care coverage through a deduction from their monthly benefit payment.

The number of participants eligible to receive health care benefits as of December 31, 2001, the date of the last actuarial valuation available was 13,174 for police and 10,239 for firefighters. The portion of the City's 2002 contributions that was used to pay postemployment benefits was \$4,516,805 for police and \$3,427,463 for firefighters. The total health care expense of the fund for the year ending December 31, 2001, the date of the last actuarial valuation available, was \$122,298,771, which was net of member contributions of \$6,874,699.

State PERS

Plan Description

Only City employees who were members in the Public Employees Retirement System of Ohio (PERS) or another Ohio State Retirement System prior to their City employment, City personnel employed in the building crafts trade since 1961, elected officials and certain part-time employees are enrolled in PERS.

PERS is a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 145 of the Ohio Revised Code. PERS issues a stand-alone financial report. Interested parties may obtain a copy by making a written request to PERS, 277 East Town Street, Columbus, Ohio 43215-4642 or calling (614) 466-2085.

Funding Policy

The Ohio Revised Code provides statutory authority for employee and employer contributions. Employees contribute 8.5% of their annual compensation. The City's contribution rate for 2002 was 13.55% of covered payroll; 8.55% was the portion used to fund pension obligations and 5.00% was used to fund health care for 2002. City of Cincinnati's contributions to PERS for the years ending December 31, 2002, 2001, and 2000, were \$1,943,000, \$1,822,000, and \$1,363,000 respectively, equal to the required contributions for each year.

Other Postemployment Benefit Information

PERS provides postemployment health care coverage to age and service retirants with ten or more years of qualifying service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by PERS is considered an Other Postemployment Benefit (OPEB). A portion of each employer's contribution to PERS is set aside for the funding of postemployment health care. The Ohio Revised Code provides statutory authority for employer contributions.

OPEB are advance-funded on an actuarially determined basis. The number of active contributing participants was 402,041. The portion of the City's employer contribution that was used to fund postemployment benefits was \$716,971. The actuarial value of PERS net assets available for OPEB was \$11,600,000,000 at December 31, 2001. The actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$16,400,000,000 and \$4,800,000,000 respectively.

City of Cincinnati Retirement System

Plan Description

The City of Cincinnati Retirement System is a cost-sharing multiple-employer defined benefit pension plan. The System provides retirement and disability benefits, annual cost of living adjustments, and death benefits

to plan members and beneficiaries. The System is considered part of the City of Cincinnati's financial reporting entity and is included in the City's financial report as a pension trust fund, see pages 30 and 31. No separate financial report is issued. Article XV of the Administrative Code of the City of Cincinnati provides the statutory authority vesting the general administration and responsibility for the proper operation of the System in the Board of Trustees of the City of Cincinnati Retirement System. There are four employers that contribute to the plan. They are the City of Cincinnati, University of Cincinnati, University Hospital and Hamilton County. Membership of the Retirement System of the City consisted of the following at December 31, 2002, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	<u>Pension</u> 4,486	Health care 4,486
Terminated plan members entitled to future benefits	99	99
Active plan members: Vested Nonvested	3,166 2,434	1,821 <u>3,779</u>
Total	<u>10,185</u>	10,185

1,754 of the Nonvested members are part-time employees who are included in the system to comply with the Omnibus Budget Reconciliation Act of 1990, which mandated the inclusion of certain classifications of employees either in state or municipal retirement systems or the Federal Insurance Contribution Act (Social Security). The City of Cincinnati's Retirement System covers the majority of non-uniformed City employees and a closed group of members from other employers which includes employees of the University of Cincinnati and University Hospital who joined before control of these institutions was transferred to the State of Ohio, and former City employees staying with various operations transferred to the control of Hamilton County.

The service retirement allowance vests after five years of creditable service. Medical care benefits vest after fifteen years of creditable service, or if hired before January 9, 1997 after reaching age sixty with at least five years of creditable service. Any member in service may retire at any age upon completing thirty or more years of membership service or at age 60 with at least five years creditable service, with a retirement allowance commencing immediately; or any member upon completing five years of creditable service before age sixty may retire with a retirement allowance commencing at age sixty, provided, however, at the time of election of the deferred annuity there is no loan outstanding against his contributions.

The annual retirement allowance is equal to 2.5% of the average of the three highest years' compensation multiplied by the number of years of membership service. Employees hired before July 12, 1998 elected either the 2.5% or a 2.22% formula which factors in overtime pay and lump sum payments for vacation, sick leave and compensatory balances. All new employees hired July 12, 1998 and thereafter are subject to the 2.5%

formula. Pensions are increased by 3% compounded annually commencing one year after retirement. The System also provides death and disability benefits. These benefit provisions and all other requirements are established by the Cincinnati Municipal Code.

Contributions

Each member contributes at a rate of 7% of his salary until his retirement. This percent contributed by the employees is fixed by the fund's Board of Trustees on the basis of authority provided by Chapter 203 Section 77 of the Cincinnati Municipal Code. The City makes annual employer contributions based on a percentage

of the salaries of all members. The contribution rate for 2002 was 7% for all employers. City of Cincinnati's contributions to the City of Cincinnati Retirement System for the years ending December 31, 2002, 2001, and 2000 were \$11,974,000, \$12,454,000, and \$11,520,000, respectively equal to the required contributions for each year as set by the Board of Trustees. No contributions were actuarially required for 1999, 2000 and 2001. Administrative costs are financed from the system assets. The System's independent actuary reported that the System's unfunded actuarial accrued liability for prior service cost was paid off as of December 31, 1998.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting - The City of Cincinnati Retirement System financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments - The Retirement System investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchange are valued at the last reported sales price at current exchange rates.

Securities Lending – The Retirement System securities lending program disclosures are presented in accordance with Governmental Accounting Standards Board Statement 28, Accounting and Financial Reporting for Securities Lending Transactions. The disclosures are located in Footnote 2 – Deposits with Financial Institutions and Investments and on the statement of plan net assets and statement of changes in plan net assets.

Derivatives – The Retirement System derivative disclosures are presented in accordance with Governmental Accounting Standards Board Technical Bulletin No. 94 –1, Disclosures about Derivatives and Similar Debt and Investment Transactions and can be found in Footnote 2 – Deposits with Financial Institutions and Investments.

Other Postemployment Benefit Information

The System provides hospital and surgical insurance and dental and vision insurance to retired members who have earned fifteen years credited service at the time of termination or terminate after age sixty with five years credited service. Those who are receiving survivor benefits of eligible members are entitled to have their hospital and surgical insurance and dental and vision insurance premiums paid by the System. When benefits would be reduced by reason of the retired member's eligibility for hospital and medical benefits under federal social security laws, the System will pay whatever additional fees are required for the federal medical coverage.

The health care coverage provided by the System is considered an Other Postemployment Benefit (OPEB). It is advance-funded on an actuarially determined basis as a portion of the employer contribution requirement to the System. The Cincinnati Municipal Code provides authority for employer contributions.

The actuarial assumptions used for the December 31, 2002 valuation included an assumption for hospital and surgical benefits recognizing adjusted premiums based on experience for recent years adjusted to current year by assumed annual increases in premium costs. The cost of OPEBs are recognized as an expense as claims are paid. The employer contribution that was used to fund postemployment benefits was \$3,146,000. The actuarial value of the System's net assets available for OPEB at December 31, 2002 was \$748,291,000. The actuarially accrued liability based on the actuarial cost method used was \$757,166,000.

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation follows.

Valuation date 12/31/02

Actuarial cost method Entry age normal

Asset valuation method The actuarial value of assets is based on a five-year moving

average of gains and losses recognized at 20% per year. The investment gain/(loss) is taken as the excess of the actual return on assets over the expected return on assets. The investment gain/(loss) is then recognized at 20% per year until fully recognized. The actuarial value of assets is the market value minus the sum of the deferred investment gains/(losses) during the preceding five plan years. In addition, the actuarial value is restricted to be no less than 80% of the market value or no more than 120% of the market value. The adoption of this method is effective at December 31, 2002. The previous four years of gains/(losses) are reflected in determining the initial

actuarial value of assets.

Actuarial assumptions:

Investment rate of return* 8.75% per year, prior to expenses, compounded annually.

Mortality

Non-disabled lives: Uninsured Pensioner 1994 Mortality Table projected to

2009

Disabled Retirees: Pension Benefit Guarantee Corp. Disabled Mortality Table

Turnover 2000 City of Cincinnati Rate of Termination Experience

Table

Disability The 1995 City of Cincinnati Disability Retirement

Experience Table

Salary increases Salary increases are assumed to vary by service. For those

who had not elected the 2.50% formula an additional 10% assumption increase in average salary is used to reflect final

lump sum payments.

Hospital and Surgical Benefits Adjusted premiums are based on experience for recent years

adjusted to current year by assumed annual increase in

premium costs.

Medicare Part B Premiums are assumed to increase in accordance with

estimates from the 2002 Annual Report of the Board of Trustees (previously the Congressional Budget Office) until the year 2011 and then increase at 5.5% per year thereafter.

Dental Benefits Premiums are assumed to increase at a decreasing rate,

starting at 6.5% for 2003, then decreasing by 0.25% per year to 4.5% and remaining there for 10 years, then decreasing gradually over 17 years to zero. This takes the \$1,000 fixed cap on annual dental costs into account.

Vision Benefits The vision premium is fixed at \$40 per year. The

anticipated annual increase in costs is 0.5% to take increases in administrative costs into account.

*Inflation rate No assumption.

Cost-of-living adjustments 3% compound interest

City Of Cincinnati, Ohio

Note to the Required Supplementary Information December 31, 2002

Note A- Budgetary Data

An operating budget is legally adopted each fiscal year for the General Fund. The budgetary data reports included within this report are prepared on a cash basis of accounting, with the exception of certain accrued personal service and employee benefit costs. Encumbrances, which do not lapse at year-end, are included as expenditures in the current year budget (Non-GAAP). The budgetary process begins at least six months prior to the calendar year for which the budget is to be adopted, with the City certifying the proposed budget to the County Auditor by July 20. By January 1, City Council may adopt annual or temporary appropriation measures using, in part, the official certificate of estimated resources approved by the County Budget Commission and tax rates certified by the County Auditor. By April 1, City Council must adopt annual appropriation ordinances. Only unencumbered appropriations lapse at year end.

The levels of appropriation control for each budgeted expenditure classification that may not be exceeded are: personal services, non-personal services, capital outlay, and debt service. Any revisions that alter the budgeted expenditure classification of any division within a City department must be approved by City Council. During the year, several supplementary appropriations were necessary.

SUPPLEMENTARY INFORMATION

(This page intentionally left blank.)

MAJOR GOVERNMENTAL FUND GENERAL FUND

The General Fund is the general operating fund for the City. It is used to account for resources, traditionally associated with governments, which are not required to be accounted for in another fund.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Health Services Fund - Used to improve, establish, expand, and/or maintain health services to the citizens of Cincinnati.

<u>Street Construction, Maintenance and Repair Fund</u> - Used to account for street maintenance, repair and cleaning, and the operation and maintenance of traffic signals. Financing is provided by the City's share of State-levied Motor Vehicle License Tax, Gasoline Tax, and reimbursements of expenses.

Parking Meter Fund - Used to account for resources provided by collections from parking meters.

<u>Cable T.V. Fund</u> - Used to account for the proceeds of cable franchise fees received from the cable provider.

<u>Income Tax Infrastructure Fund</u> - Used to account for the proceeds of a .1% levy on earned income for infrastructure purposes.

<u>Income Tax Transit Fund</u> - Used to account for the proceeds of a .3% levy on earned income for transit purposes.

<u>Motor Vehicle License Fund</u> - Used to account for resources provided by the locally levied Municipal Motor Vehicle License Tax.

<u>Special Recreation Fund</u> - Used to account for monies received for special activities such as enrichment exercise programs or caretaker services.

<u>Recreation</u> - Used to account for Federal funds, private contributions, and user fees, and for expenditures made for special recreation activities.

<u>Parks</u> - Used to account for State funds, private contributions, and user fees, and for expenditures made for special parks activities.

<u>Safety</u> - Used to account for Federal and State funds and private contributions, and for expenditures made for public safety purposes.

<u>Health</u> - Used to account for Federal and State funds, private contributions and user fees, and for expenditures made for public health purposes.

<u>Cincinnati Blue Ash Airport</u> - Used to account for the revenue and the expenditures for the operation and maintenance of a municipal airport.

Community Development - Used to account for Federal funds received for city-wide development operations.

<u>Department of Labor Grants</u> - Used to account for Federal funds received for the relief of unemployment through jobs and training.

Other - Used to account for Federal and State funds, private contributions and user fees, and for expenditures for specific purposes not otherwise designated.

<u>Bettman Nature Center</u> - Used to account for the investment and expenditure of bequests made for the Bettman Nature Center.

PERMANENT FUNDS

<u>Groesbeck Endowment</u> - Used to account for the investment and expenditure of bequests made for the cost of music concerts in Burnet Woods.

<u>Schmidlapp Park Music</u> - Used to account for the investment and expenditure of bequests made for the cost of music concerts in Eden Park.

<u>Joanna Peters Bequest</u> - Used to account for the investment and expenditure of bequest made for the treatment of alcoholism.

<u>W. M. Ampt Music Endowment</u> - Used to account for the investment and expenditure of bequests made for the cost of concerts in various City parks.

<u>Crosley Field Trust</u> - Used to account for the investment and expenditure of bequests made for the maintenance of the Crosley Field Sports Complex.

<u>Kroger Trust</u> - Used to account for the investment and expenditure of bequest made for the maintenance of the Hartwell Recreation Center.

<u>Yeatman's Cove Park Trust</u> - Used to account for the investment and expenditure of bequest made for the maintenance of the Yeatman's Cove Park.

<u>Park Board Fund</u> - Used to account for the investment and expenditure of bequests related to the maintenance and improvement of Fleishmann Gardens, the Geier Esplanade, and various citywide parks.

NON-MAJOR ENTERPRISE FUNDS

<u>Parking Facilities</u> - Used to account for the revenue and expenses of the parking meters, garages, and lots of the City.

<u>Convention Center</u> - Used to account for the expenses from the operation of the Albert B. Sabin Convention Center, financed primarily through user fees.

<u>General Aviation</u> - Used to account for the expenses of Lunken Airport, financed primarily through user fees.

<u>Municipal Golf</u> - Used to account for the revenue received from all golf activities and for the expenses of operating the golf courses of the City.

<u>Stormwater Management</u> - Used to account for the operation, maintenance and improvement of a stormwater management system. Financing is provided by the users of the system in proportion to their use of the system.

INTERNAL SERVICE FUNDS

<u>Purchasing-Reproduction and Printing</u> - Used to account for revenue from City departments and for the expenses of operations and maintenance of the Division of Reproduction and Printing.

<u>Municipal Garage</u> - Used to account for revenue from City departments for auto repairs and maintenance and to account for the expenses necessary to provide this service.

<u>Purchasing-General Stores</u> - Used to account for the revenue and expenses related to the distribution and sale of materials and supplies.

<u>Property Management</u> - Used to account for proceeds of City leases and land sales and to account for costs of administering the fixed assets of the City.

<u>Self Insurance-Medical</u> - Used to account for monies appropriated from the General or other funds or received from contract agencies, employees, members of council and others, including interest earned, and to make expenditures for employee medical costs.

<u>Self Insurance-Workers' Compensation</u> - Used to receive, from all City funds, workers' compensation premium charges, and to pay workers' compensation premium payments, claim costs and reserve settlements.

<u>Regional Computer Center</u> - Used to account for revenue and expenses related to the delivery of data processing services to the City, Hamilton County, and others.

The Schedule of Expenditures of Federal Awards is presented on a Non-GAAP budgetary basis. Total Community Development Block Grant loans outstanding at December 31,2002 totaled \$40,133. Total Rental Rehab loans outstanding totaled \$15,016.

CITY OF CINCINNATI, OHIO INFRASTRUCTURE INCOME TAX

In accordance with the provisions of Chapter 311 of the Cincinnati Municipal Code, an additional earnings tax of .1% shall be levied for costs related to constructing, equipping, maintaining and repair of the City's infrastructure. Such tax shall remain in effect as long as the City appropriates at least the base amount required and subsequently expends funds at a level (ninety percent of the annual base amount within three years) specified in Chapter 311, CMC.

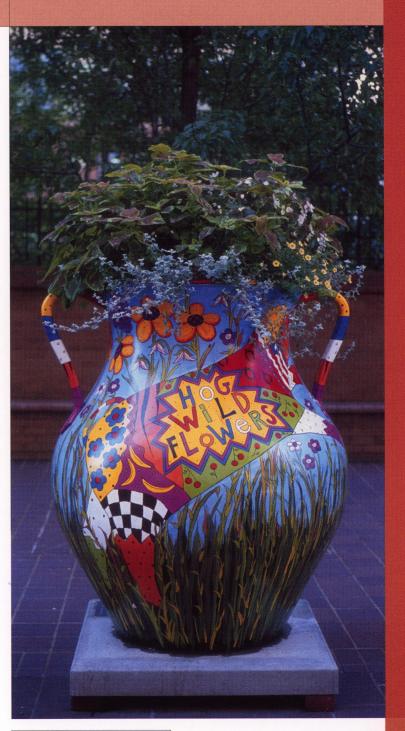

The following data summarizes the results of the City's compliance with the infrastructure income tax requirements for 2002 and 2001.

(AMOUNTS IN THOUSANDS)

	<u>2002</u>	<u>2001</u>
Required Base Amount	\$58,809	\$57,583
Actual Appropriated Amount	\$69,738	\$75,002
Infrastructure Expenditures - As of December 31, 2002	\$44,828	\$63,549
Percentage of Expenditures to Base Amount	76.2264%	110.3607%

I hereby certify that the City of Cincinnati appropriated for 2002 an amount sufficient to meet the requirements for continuation of the Infrastructure Income Tax. I also certify that the City of Cincinnati did expend through 2002 for the 2001 Infrastructure year more than 90% of the annual base amount, which satisfies the requirements for continuation of the Infrastructure Income Tax.

1995	3,540,684,410	450,760,050	689,532,610	4,680,977,070
1996	3,531,863,130	421,404,651	707,228,240	4,660,496,021
1997	3,732,312,910	419,703,440	689,982,870	4,841,999,220
1998	3,734,237,420	395,256,670	672,898,830	4,802,392,920
1999	3,749,677,500	398,949,700	664,939,340	4,813,566,540
2000	4,363,343,290	400,519,090	674,101,770	5,437,964,150
2001	4,363,447,780	377,645,690	687,613,910	5,428,707,380
2002	4,379,262,050	304,549,100	644,918,170	5,328,729,320

The current assessed valuation for 2002 is computed at approximately the following percentages of estimated true value:

real property - 35%; public utilities - various; and tangible personal property machinery and equipment - 25%; inventory - 25%.

For real property, the estimated true values for the last ten years are computed as follows:

	Estimated		Estimated
Year	True Values	Year	True Values
1993	\$ 9,043,485,770	1998	\$10,669,249,771
1994	10,175,093,314	1999	10,713,364,285
1995	10,116,241,171	2000	12,466,695,114
1996	10,091,037,514	2001	12,466,993,657
1997	10,663,751,117	2002	12,512,177,286

For public utility property and tangible personal property, the City is not able to calculate estimated true values for the last ten years because the tangible personal property components (machinery and equipment, and business inventory) have been assessed over the years at different percentages.

CITY OF CINCINNATI, OHIO Salaries of Principal Officials

Position	<u>Salary</u>
Mayor	\$114,300
Councilmember, other than Mayor	\$57,150
City Manager	\$187,720
Commissioner of Health	\$101,600 - \$137,150
Deputy City Manager	\$101,600 - \$137,150
City Solicitor	\$101,600 - \$137,150
Various Department Directors	\$86,950 - \$117,390

MAYOR and CITY COUNCIL

The mayor is elected for a four-year term by the voters of Cincinnati. The legislature of the City is a nine-member council elected at large on a partisan basis for two-year terms. The vice-mayor is chosen by the mayor from the councilmembers. A list of the council incumbents and the term each is presently serving appears on page (xxiii). The mayor selects the city manager, but the mayor's nominee must be approved by a majority of the council. The city manager appoints the deputy city manager and the department directors.

CITY OF CINCINNATI, OHIO Surety Bond Coverage

A faithful performance blanket bond coverage of \$1,000,000 is maintained for all City employees.

CITY OF CINCINNATI, OHIO Cincinnati Profile

Government and History

Cincinnati was founded in 1788, chartered as a village in 1802, and incorporated as a City within Hamilton County in 1819. Major revisions to the City Charter were approved by the voters in 1926 to provide for home rule and the council-manager form of government. In 2001, the City adopted a strong mayor-council form of government. Copies of the City Charter are available on request from the Clerk of Council; City Hall; Cincinnati, Ohio 45202.

Population	Census	Census	Census	Census	Census
	2000	<u>1990</u>	1980	<u> 1970 </u>	<u>1960</u>
